**RE: STORMWATER DESIGN FOR PROPOSED ALTERATIONS AND ADDITIONS AT
44 GREYCLIFFE ST, GREYCLIFFE
PROJECT NUMBER: 200810**

Istruct Consulting Engineers are the Stormwater Consultants on the above project.

We reference the architectural drawings for the proposed alterations and additions prepared by Watershed Design, Issue G, dated 29/09/20 and confirm that a stormwater management plan will be prepared by us at Construction Certificate (CC) stage which will be in general accordance with the architectural drawings and comply with AS3500 and Council's Policy.

We expect, subject to the existing stormwater system being checked for adequacy by a licensed plumber, that all stormwater will connect to existing in accordance with AS3500.

We trust that the above meets with your requirements. Please contact the author if further clarification is required.

Yours Faithfully
ISTRUCT CONSULTING ENGINEERS
