Dear Elizabeth

Re: Review of Operational Waste Management Plan – 195-197 Sydney Road, Fairlight NSW

Waste Audit & Consultancy prepared an Operational (September 2018) for the development located at 195-197 Sydney Road, Fairlight.

Northern Beaches Council provided a response dated 16th February 2021 where they requested changes to the number (and size) of bins, as well as some design changes. I have reviewed the required changes to the design, access and location as indicated in the Waste Referral Response.

A revised plan has been provided for Waste Audit & Consultancy to review to determine if the amendments meet Council's waste management design guidelines. The revised plan is as below:

Waste Audit & Consultancy Services (Aust.) P/L

Level 9 / 440 Collins Street, Melbourne, Vic 3000

T +61 3 9607 1393

Level 21, 133 Castlereagh Street, Sydney, NSW 2000

T +61 2 9199 4521

W: www.wasteaudit.com.au

Based on these amendments, I am on the view that the waste storage area and design, access and location does meet Council's waste management design guidelines and specifically the issues raised in the Waste Referral Response

Yours sincerely
