I am in full support of the plan to proceed with the re-zoning.

This may not be the right time yet for the design of the park's southern section. However, the area has little to offer the teenagers to play. The Rocket play park is for the under ten year olds. It would be a good idea to locate in the southern section an area for the teenagers. My suggestion is a couple of basketball shooting hoops with a paved area underneath. This is not intended as full court but just a few unconnected hoops. Council may come up with other ideas to address the lack of facilities in the area.

Regards Mr Hette Mollema
