RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

I am definitely against this application. I live opposite another section of Allenby Park. I have been here since 1966, and have noticed a steady loss of native fauna over this period. We used to see lots of swamp wallabies, echidnas, water dragons etc as well as many of our endangered native birds owls etc.

The continued expansion of the light industrial area along Old Pittwater Rd., and the ever increasing size of Westfield Warringah Mall has had a devastating effect on wildlife habitat.

With the loss of bush land owing to the construction of the Northern Beaches Hospital our resident wildlife is being compressed in smaller areas all the time.

If this valuable wildlife corridor is shut the current council will forever be remembered for the loss of Warringah's native fauna. Our once abundant flora is also rapidly being eradicated by urban development.

Margaret Grant.
