**RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100**

I would like to object to this DA on the grounds of noise and environmental concerns. This industrial area has become increasingly noisy over the past couple of years, with my whole family including 2 young sons now being woken on a regular basis at various times during the night. I believe this is mainly due to the bushland having already being reduced and can only imagine it being worse if more bushland is to be removed. We have just received notice that these plans are in place which is worrying, we will be directly and negatively impacted by this development and it seems that there is no consideration for residents. My other concerns are these trees and wild life inhabiting the area, this development will destroy their natural environment and will no doubt uproot the bush turkeys, bandicoots etc that we see on a regular basis.
