RE: DA2024/0812 - 104 B Powderworks Road NORTH NARRABEEN NSW 2101

I object to the current pool proposal

There is no sound sound absorption in the plan to stop noise from the pool and slamming gate rebounding from the building, as currently the spa pump starts early morning and the spa and is in use early mornings and late evenings/ nights especially in summer which affects neighbours in the mornings and late evenings

The pool is planned almost under our bedroom and would affect our sleep, as the spa currently does

There is nowhere in the driveway to place a skip bin without affecting the turning access and driveway and affecting the driveway
