Purpose of the Waste Management Plan

This *Waste Management Plan (WMP)* will detail the arrangements for waste management during all stages of development and occupation.

The WMP must be completed in accordance with the Waste Management Guidelines (Guidelines).

A completed WMP is a mandatory requirement for any Development Application (DA) for which Council is the Consent Authority. DAs that are submitted without a completed WMP will be rejected or refused by Council.

Structure of the Waste Management Plan

All applicants are required to complete the 'Applicant and Project Details' part of the WMP and include it with the relevant Sections that apply to their proposed development.

The WMP is divided into Sections and applicants are only required to complete the relevant Sections in accordance with the Guidelines. The table below identifies which Sections are relevant to which development types.

For example, if the proposed development was to include demolition of an existing structure and construction of a single dwelling, the relevant Sections would be Sections 1, 2 and 3.

| Section | Development Type [^] |
|---|--|
| Section 1 – Demolition | All |
| Section 2 – Construction | All |
| Section 3 – On-going waste management for one or two dwellings | One or two dwelling developments Mixed-use developments containing one or two dwellings |
| Section 4 – On-going waste management for three or more dwellings | Three or more dwelling developments Mixed-use developments containing three or more dwellings |
| Section 5 – On-going waste management for non-residential and mixed use developments | Commercial developments Industrial developments Mixed-use developments |
| Section 6 – Private roadway developments | Private roadways |

[^]Note: the definitions of the development types are provided in Section vi of the Introduction to the Guidelines
