Dear Northern Beaches Council,

Thank you for your referral of this integrated development application dated 24 October 2023 to DPI Fisheries, a division of NSW Department of Primary Industries.

DPI Fisheries is responsible for ensuring that fish stocks are conserved and that there is no net loss of key fish habitats upon which they depend. To achieve this, DPI Fisheries ensures that developments comply with the requirements of the *Fisheries Management Act* (FM Act) (namely the aquatic habitat protection and threatened species conservation provisions in Parts 7 and 7A of the Act, respectively), and the associated *Policy and Guidelines for Fish Habitat Conservation and Management (2013)*. DPI Fisheries is also responsible for ensuring the sustainable management of commercial, recreational and Aboriginal cultural fishing, aquaculture, marine parks and aquatic reserves in NSW.

DPI Fisheries has reviewed the modification proposal in light of these provisions and has no objections to the proposed administrative modification as described in the *Report - Statement of Modification_CNR-61628.PDF*. All conditions set out in permit PN21/308 still apply.

If there are any changes to the extent of environmental impacts due to this modification the proponent should discuss these impacts with DPI Fisheries.
