RE: DA2019/0123 - 80 - 82 Mona Vale Road MONA VALE NSW 2103

This was a pioneer Organic Market which has established itself as very reputable and is thus very well patronised every weekend. Bringing fresh, organic produce to the Northern Beaches region has been very beneficial for many residents and it also attracts patronage from beyond that region.

This market provides ongoing employment for many stall holders plus plays an important social role (as many people enjoy the ambience of being there) and as it is held on weekends, then more people are able to access it. The health benefits all round are therefore SUBSTANTIAL also. The produce provided is not always just available at existing supermarket chains and thus the above benefits are what attract patrons regularly.

Please ensure that the Frenchs Forest Organic market has an allocated location for many years to come.
