RE: DA2021/1025 - 2 / 193 Ocean Street NARRABEEN NSW 2101

Good Afternoon.

I wish to ask the assessing officer to consider the lack of privacy I will experience in my living area and courtyard due to the issues below:

DWG DA12B North Elevation

- * Replacing the current single door with double sliding doors and extending the balcony
- *new additional sliding doors and partial extension to existing balcony
- *glass dutch gable end with louvres

These additions and replacements will all impact on the amenity that currently exists within my home and I would appreciate if the council could look at requesting some amendment to these plans as I do not believe the extra balcony space, windows and sliding doors are necessary or desirable.

I am happy to provide photographs if that will assist or organise an appointment with the assessing officer on site at 195 Ocean Street
