I visit my kids at Collaroy Plateau once a week from Burwood and I play Pickleball over the weekend as a member of the Northern Beaches Pickleball Association. Having these new Pittwater pickleball courts will provide local and outer communities more choices to enjoy a growing game and bring more customers to the local businesses. I have played at the new Warriewood courts and having another in the same area will benefit those living closer and save them a long trip further south to find a court. I look forward to these new courts opening in the future. Thanks for the consideration.
