Harbord Diggers Redevelopment - New Development WSP Infrastructure Works

Dear Jim

As requested WSP have reviewed the Wood and Grieve Engineers Harbord Diggers Club Building Services Infrastructure Report dated the 29th of July 2014 and we confirm that our current design intent documents are generally in line with the services laid out in the Wood and Grieve Engineers Infrastructure Report.

In addition to this, the design has been developed in accordance with the revised architectural scheme to account for the amendments in the proposed section 96 application and to meet the current utility requirements.

Yours sincerely

Fernandes, Rochelle
Senior Engineer
cc Grant Harding
