RE: Mod2023/0545 189 Riverview Road AVALON BEACH NSW 2107

From my understanding this modification adds an additional 29m² of open to sky landscape and 18m² of additional deep soil soft landscape for new trees, and a reduction in the house footprint

I can only see this as a positive and considering the existing DA has already been approved I can only see this as a more positive thing for the local area
And support the application .
