IMPORTANT INFORMATION FOR APPLICANTS AND OWNERS

Preparing your Application

Preparing a development application can be a complex process. To assist you in understanding the rules and regulations applying to development, Council provides a "Planning Enquiry" tool on our website which includes site specific information and checklists. Visit: www.pittwater.nsw.gov.au/planningenquiry

The Planning Enquiry tool will help to establish if what you propose is permitted on your land and then provide you with the relevant rules and requirements to assist you in the preparation of a development application. You will also be provided with a checklist and a number of guides which explain in more detail what supporting information is required.

Documents and Plans accompanying this application

Council requires all plans and documents (including the Application form, any reports etc) to be provided in digital format (PDF) on a USB device. Plans, drawings, documents & reports each require a separate PDF file. See Council's Electronic Lodgement Guidelines for more details and file naming conventions.

In addition to the digital version the following numbers of hard copy/printed documents and plans are to be provided.

Estimated Cost of Works

Part 15 Division 1 of the *Environmental Planning and Assessment Regulation 2000* sets out the fees for development applications. For developments that involves a building or other works, the fee for your application is based on the genuine estimated cost of development. If your application is for integrated development or requires concurrence from another state agency, you will need to include additional processing fees.

If the estimate is understated, the figure will need to be adjusted. Additional application fees may be incurred.

Note: A suitably qualified person is: a builder who is licensed to undertake the proposed works; a registered architect; a qualified and accredited building designer; a registered quantity surveyor or a person who is licenced and has the relevant qualifications and proven experience in costing the developments works.

For more information refer to the Department. Planning website. See Planning *circular PS13-002 Calculating the genuine* estimated cost of development and PS10-008 New definition of capital investment value http://www.planning.nsw.gov.au/en-us/buildinginnsw/circularsandguidelines/planningsystemcirculars.aspx
