RE: DA2021/1612 - 1 Clarke Street NARRABEEN NSW 2101

Re South Narrabeen seawall.

This is going to be a disaster. You will lose the beach as the waves rebound off the wall and scour out the sand.

Speak to surfers, fisherman and people who know about sand dune movements.

Sand nourishment could be done by pumping sand like Noosa and Tweed.

Artificial reefs, groynes would be better sand catchment options.
