RE: DA2020/0962 - 0 Wharves And Jetties MANLY NSW 2095

Yet again Hugo's wants to take over more "public" access to provide greed money to its owners and the Wharf Lease Management. I do not want to walk through rowdy customers and be on guard for the poor staff that have to work in such a closed environment. We had this argument when Jean Hay approved their old public space grab. The wharf is to be shared by day trippers and tourists that want to see an uncluttered entrance to Manly. What will happen to the penguins and the sea grasses. Once gone never to be replaced and all for more alcohol sales! Get the Wharf lessees clean up the wharf and public toilets for a better improvement.
