Subject: Tree loss from Avalon DA Jamie Durie

Hi, I live part time with my parents in Clareville (53 Wandeen Rd). I saw in the media that celebrity Jamie Durie has applied to remove native trees to develop a block of land at Avalon. I am horrified by this as biodiversity on the northern beaches is reduced to an almost unsustainable remnant and every tree is now precious. As a child I witnessed the local extinction of koalas, gliders and a whole dawn chorus worth of birds. These days even the hardier species like possums are struggling. Please don't allow this to happen - send a message that our biodiversity is more precious than that.

Thankyou,

Wendy Gleen
