### Officer comments

The subject site has an existing OSD system which is to remain. The proposed increase in impervious area will be accommodated by the existing OSD system. The existing driveway is to be widened to improve access to the site by trucks. The widening may impact upon an existing street tree which must be assessed by Council's Tree Management Officer. No objection to approval, subject to conditions as recommended.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
