RE: DA2023/0718 - 52 Cabbage Tree Road BAYVIEW NSW 2104

DA2023/0718

I support Bayview Golf Club DA to renovate 11 greens and. Build 1 new green because this DA achieves Concils professed goal to protect and enhance our natural and developed environment. The course is a green belt providing sporting reserve, wildlife sanctuary, wetlands and forests. The ground cover helps the rain to soak into the soil for plant growth, assisting controlling the waters erosive power. I find it absolutely amazing a DA is needed to replace something which is already in use but needs maintenance. Is this something new Council had just dreamed t up?
