Submission on PP007/13

We wish to strongly object to this development proposal on the following grounds. 1. Building heights proposed are more than double the existing guideline in the recent strategic review plan. 2. Density appears way above allowed. 3. Current infrastructure eg roads , transport schools not sufficient to cope. 4. All future development in the valley surely must comply with the recent and thorough strategic review which was agreed to by both council and the department of planning. 5. What is the point of Government and council doing plans if they are not enforced.
