Dear MS Wood

Regarding the development

DA2021/0318 LOT 501 DP736679 14 South Steyne MANLY

We have lived in the area for 18 months – we have only ever experienced one ongoing issue with the building as a commercial site -that is the disposal glass bottles into the metal recycle between 1am and 2am Saturday, Sunday and Monday mornings .These seem to be drop from a great height making a loud noise of broken glass. Our bedroom is on Victoria Parade .We request that disposal of the glass bottles to the outside metal bins take place after 7.00 am and in daylight hours only

Sorry this was not submitted before April 29 as we were away
