RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

Thank you for the opportunity to comment on this development.

I strongly object to the destruction of the bushland corridor between the industrial area of brookvale and Allambie heights. As a sixty year resident of Corkery crescent I have watched the buffer zone being gradually taken over by industry. This same buffer zone/bushland corridor we were promised by those in authority would remain intact. The development on the neighbouring land 138-140 old Pittwater road generates much noise and has almost but not quite blocked the corridor. This current application will take an enormous toll on the bushland and the wildlife that use it by blocking it completely.

It is also incredibly close to the residential area of Allenby park parade. I request that the council reject this development due to its huge impact on the natural and residential environment of Allambie heights.
