

Natural Environment Referral Response - Biodiversity

Application Number:	DA2022/2249
Proposed Development:	Alterations and additions to a dwelling house including a swimming pool
Date:	08/02/2023
Responsible Officer	Nick Keeler
Land to be developed (Address):	Lot 3 DP 533936 , 2097 Pittwater Road CHURCH POINT NSW 2105

Reasons for referral

This application seeks consent development on land, or within 40m of land, containing:

- All Development Applications on
- Actual or potential threatened species, populations, ecological communities, or their habitats;
- Wildlife corridors;
- Vegetation query stipulating that a Flora and Fauna Assessment is required;
- Vegetation query - X type located in both A & C Wards;

And as such, Council's Natural Environment Unit officers are required to consider the likely potential environmental impacts.

Officer comments

The proposal seeks approval for alterations and additions to a dwelling house including a swimming pool.

The comments on this referral relate to the following controls and provisions:

- NSW Biodiversity Conservation Act 2016
- SEPP (Resilience and Hazards) 2021 - Development within the coastal environment
- Pittwater LEP 2014 - Clause 7.6 Biodiversity Protection
- Pittwater 21 DCP - Clause B4.7 Pittwater Spotted Gum Forest - Endangered Ecological Community

Portions of the site are identified on the Department of Planning and Environment's Biodiversity Values Map (BV Map). Under the NSW Biodiversity Conservation Act, any removal of native vegetation from within mapped areas will trigger the Biodiversity Offset Scheme (BOS) and the requirement for a Biodiversity Development Assessment Report (BDAR). However, the submitted plans and documentation indicate that the proposed works are located outside of the BV Map area and therefore will not trigger entry into the BOS.

The proposal has been submitted with an accompanying Arborist report which has recommended the removal of Tree 3, a mature *Melaleuca quinquenervia* (Paperbark). The Statement of Environmental Effects has noted that suitable replacement planting will take place to replace the lost tree. No tree planting schedule has been submitted with the application and therefore tree replacement shall be conditioned.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Natural Environment Conditions:

**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION
CERTIFICATE**

No Clearing of Vegetation

Unless otherwise exempt, no vegetation is to be cleared prior to issue of a Construction Certificate.

Details demonstrating compliance are to be submitted to the Certifier prior to issue of Construction Certificate.

Reason: To protect native vegetation.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Wildlife Protection

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a registered wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE
OCCUPATION CERTIFICATE**

Replacement of Canopy Trees

At least 1 *Melaleuca quinquenervia* trees are to be planted on site to replace protected trees approved for removal. Species are to have a minimum mature height of 8.5m and be consistent with Council's Native Gardening Guide.

Tree plantings are to be retained for the life of the development and/or for their safe natural life. Trees that die or are removed must be replaced with another locally native canopy tree.

Replacement plantings are to be certified as being completed in accordance with these conditions of consent by a qualified landscape architect, and details submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To establish appropriate native landscaping.

No Weeds Imported On To The Site

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan 2021 – 2026) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any

Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.
