Officer comments

The proposal is indicated to be for construction of a new carport and alterations to an existing dwelling.

The application is assessed by Landscape Referral against Manly Local Environmental Plan and Manly Development Control Plan , including but not limited to: section 3: General Principles of Development, 3.3.1 Landscape Design and 4.1.5 Open Space and Landscaping.

The proposed driveway crossover requires removal of a small street tree. An Arborist's Report has been submitted with the application. The report identifies the tree (*Leptospermum petersonii*) as being in poor health and low retention value. The opinion of the Arborist is concurred with and no objections are raised to removal of the tree. As the site is on a corner lot, replacement tree planting is not feasible to proximity to the road intersection. Existing trees on site are to be retained

No objections are raised to approval subject to conditions as recommended.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
