**RE: Mod2018/0376 - 10 Fern Creek Road WARRIEWOOD NSW 2102**

Good afternoon. I find it disappointing that mature street trees cannot be sourced resulting in this modification. I have done a brief search on the internet and the angophora, in particular, is available at a nursery other than the ones mentioned in the application. I would recommend that the applicant looks a little further afield to source the mature street trees for 10 Fern Creek Road. A lot of flora has been lost since development commenced in Fern Creek Road/Orchard Street and it would be disappointing if every effort was not made to replace with mature specimens. Thank you and kind regards, Kay Millar
