RE: Mod2020/0007 - 184 Garden Street WARRIEWOOD NSW 2102

I note there appears on the plans I could find on the NBC website that there is no provision for the public walkway required in the Warriewood Master Plan and was there before. This was pointed out in the Warriewood Residents Association when this application was submitted. Why was this not included?

If the council approves this modification will the hiding of the contaminants under pavements only pass the problem onto others. I don't think it is suitable to have contaminants under the public walkway when it is installed.
