RE: Mod2024/0079 - 28 Lockwood Avenue BELROSE NSW 2085

i have checked and gone over the site to see the possible extra heights, while i understand the reasons behind thi modification, i cannot see the benefits for the area, it goes against all the rules, it is already higher than everyone expected to be and now they want it higher than approved. I do not see any value as a person living in the area, it will make it unlivable for the rest of us, lack of privacy. I can only hope this is not approve
