RE: DA2020/1567 - 9 Bate Avenue ALLAMBIE HEIGHTS NSW 2100

On the Shadow plans, the direction of north is incorrectly labelled. The direction they have indicated as north is actually west.

We have also spoken to the applicant about our concerns regarding the south facing second floor balcony and master bed windows as they will be looking directly into our pool area. We were assured that the plans would be modified to include some form of privacy screening, but none is included in the plans. As I have 2 very small daughters I am against anyone being able to watch them from another property whilst they are in the pool. I am not trying to cause issues with our neighbours but would not feel comfortable with that amount of windows looking into our yard.
