**RE: DA2019/0023 - 10 Talgara Place BEACON HILL NSW 2100**

Alterations and additions to a dwelling house including a swimming pool - is not enough information regarding the DA2019/0023. This could mean they are building another house across a swimming pool.... which has already been done in Beacon Hill and approved by council - to build across and enclose a swimming pool and build another ENTIRE HOUSE ontop of existing swimming pool..... I find the fact that Cost of Work:\$ 345,500 excessive for alterations etc. I suspect it's another house ontop of a swimming pool..(and enclosing that pool area to use as a structure of support for the 2nd level of another house ) ... I find this very strange indeed , that there's no documents with this DA & I believe it shouldn't be online without documents.
