RE: Mod2016/0293 - 80 Evans Street FRESHWATER NSW 2096

Objection to an extension of Hours Application on the Harbord Diggers Development.

This is a very large building site with Heavy machinery and extreme noise for the duration of the working day, adjacent to and centrally located within a very much residential area. Much noisier than a regular house build.

The street from hours before and after are inundated with a huge number of back to back heavy vehicles making transport slow, difficult and dangerous. They run their engines and park noisily in our street and car park in the dark of early morning already - prior to construction work even beginning.

Already we have breaches of Hours of Construction as the Diggers appear to ignore any constraints put on them - operating some 3 hours after the 5pm curfew even tonight (Wed Nov 23rd) showing that they cannot be trusted to adhere to council agreements.

It would be extremely disruptive to our lives as a family to have this extreme noise and disruption occurring beyond 5pm and certainly for most of the day on Saturday..

In addition I am a professional composer - currently composing the Music for the Commonwealth Games - my studio backs on to Evans Street and I am unable to compose or record in any way until construction stops each day due the noise. This is incredibly difficult and as a result I have had to change my entire working hours which has had a dramatic and negative effect on our lives.

This request is unreasonable and unfair to the many residents - who are long term residents in your council constituency.

We look forward to the Council supporting the residents in not allowing the already significant disruption to our lives to be increased.
