

Engineering Referral Response

| | |
|--|---|
| Application Number: | DA2024/1701 |
| Proposed Development: | Construction of a sewage reticulation system as ancillary development to the Warringah Mall Shopping Centre |
| Date: | 12/03/2025 |
| To: | Kye Miles |
| Land to be developed (Address): | Lot 103 DP 1247294 , 145 Old Pittwater Road BROOKVALE NSW 2100 |

Reasons for referral

This application seeks consent for the following:

- New Dwellings or
- Applications that require OSD where additional impervious area exceeds 50m² or
- Alterations to existing or new driveways or
- Where proposals affect or are adjacent to Council drainage infrastructure incl. watercourses and drainage channels or
- Torrens, Stratum and Community Title Subdivisions or
- All new Commercial and Industrial and RFB Development with the exception of signage or
- Works/uses in flood affected areas

And as such, Council's development engineers are required to consider the likely impacts on drainage regimes.

Officer comments

The proposed development is in Region 2. A geotechnical report has been provided.

The proposed development is near Council infrastructure present within the site (Stormwater Pipe). To demonstrate compliance with the Northern Beaches Council's Water Management for Development Policy. It is required that following details are submitted with the application:

1. Accurately locate, confirm dimensions including depth and plot to scale Council's Public drainage system and associated infrastructure on the DA site plans that outline the proposal. This should be carried out by service locating contractor and registered surveyor. (Evidence of methodology adopted used for locating stormwater system should be provided). Show the stormwater pipe on plans and produce a longitudinal section.
2. All structures are to be located clear of any council pipeline, pit or easement and comply with minimum vertical and horizontal clearances.

Engineering Comments 12.03.25

Survey information on the stormwater assets on the site has been provided. Development engineering raises no further objections to the proposed development, subject to conditions.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.

Recommended Engineering Conditions:

**CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION
CERTIFICATE**

**Geotechnical Report Recommendations have been Incorporated into Designs and Structural
Plans**

The recommendations identified in the Geotechnical Report referenced in Condition 1 of this consent are to be incorporated into the construction plans. Details demonstrating compliance are to be submitted to the Certifier prior to the issue of the construction certificate.

Reason: To ensure geotechnical risk is mitigated appropriately.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

**CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE
OCCUPATION CERTIFICATE**

Stormwater Disposal

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.
