Consideration of Application		
The proposal seeks consent for a double garage and store room underneath at the front of the property. The heritage item is located to the south east, south and south west of the subject site as the reserve wraps around this street. However the subject property does not directly adjoin the reserve due to Barrabooka Street at the front and the House St road reserve (unformed) to the rear. Given the scale of the works and the physical separation, the proposal is considered to not impact upon the heritage item or its significance.		

Therefore Heritage raises no objections and requires no conditions.

Consider against the provisions of CL5.10 of MLEP.

Is a Conservation Management Plan (CMP) Required? No
