RE: Mod2024/0048 - 615 Pittwater Road DEE WHY NSW 2099

It is very disappointing to find this proposed development being amended yet again. We had severe concerns with the original Application and the amended plan. This latest modification does not add anything to change our view. The bulk, height, lack of parking, lack of privacy and road safety issues seem to have been completely disregarded. Access to/from Painters Parade is already difficult without adding more parked vehicles that will result from insufficient provision in the DA. I hope the concerns of the neighbouring residents are addressed on this occasion.
