**RE: REV2021/0034 - 231 Whale Beach Road WHALE BEACH NSW 2107**

ATTN Assessment Officer - Northern Beaches Council

We are fortunate that the Northern Beaches are some of the most beautiful in the world. Having been born in Manly some 65 years ago I consider Manly to Palm Beach to be my area and have visited restaurants, cafe's, shops and beaches along the peninsula for all of those years. My direct family members are spread equally through many of the suburbs.

I previously submitted an application to support this project but the only alteration I can make is that the property has been vastly improved from the original submission. I'm certainly not technically competent to quote on the building requirements but I consider myself having a critical eye for the peninsula architecture.

Many dwellings have been improved over the years modernising homes, unit blocks and retail locations.

The quaint village style of Whale Beach combined with the priceless aspects of fortunate geography lends itself to tasteful development complementing these elements. I strongly support this application and look forward to showcasing many international visitors with a visit to "Whaley's" new premier cafe.

Sincerely,

Barry G. Brown
