### Reasons for referral

This application seeks consent for land located within the Coastal Zone.

And as such, Council's Natural Environment Unit officers are required to consider the likely impacts on drainage regimes.

### Officer comments

The application has been assessed in consideration of the *Coastal Management Act 2016*, State Environmental Planning Policy (Coastal Management) 2018 and has also been assessed against requirements of the Pittwater LEP 2014 and Pittwater 21 DCP.

#### Coastal Management Act 2016

The subject site has been identified as being within the coastal zone and therefore *Coastal Management Act 2016* is applicable to the proposed development.

The proposed development is in line with the objects, as set out under Clause 3 of the *Coastal Management Act 2016*.

#### State Environmental Planning Policy (Coastal Management) 2018

The subject land has been included on the 'Coastal Wetlands and Proximity Area' map under the State Environmental Planning Policy (Coastal Management) 2018 (CM SEPP). Hence, Clauses 10, 11 and 15 of the CM SEPP apply for this DA.

Comment:

On internal assessment the DA satisfies requirements under clause 15 of the CM SEPP. However, other sections of the Council will assess the requirements under the Clauses 10 and 11 of the CM SEPP.

#### Pittwater LEP 2014 and Pittwater 21 DCP

No other coastal related issues identified.

As such, it is considered that the application does comply with the requirements of the coastal relevant

clauses of the Pittwater LEP 2014 and Pittwater 21 DCP.

The proposal is therefore supported.

Note: Should you have any concerns with the referral comments above, please discuss these with the Responsible Officer.
