RE: DA2018/1924 - Forest Way FRENCHS FOREST NSW 2086

I disagree with the recent amendment to original plans of the Forestway development that rejected the NO RIGHT TURN onto Forest way via traffic lights.
The back streets GRACE, DEAKIN, BENTLEY are currently congested due to the apartment/town house additions to the area that did not consider parking in the neighbourhood.

Children and parents are often walking to and from local schools and extra traffic increases the risk of accidents.

This needs better planning, it is already used as a rat run, the locals are already inconvenienced.
