RE: REV2022/0024 - 394 Barrenjoey Road NEWPORT NSW 2106

We are requesting that you please re-consider the DA of Newport SLSC
This club has been a big part of the community since it's conception and continues to do so.
We have currently outgrown our clubhouse and it is currently not fit for use to continue to train
or encourage current and future lifesavers.
We need a building that is on the beachfront to ensure that we have the best vantage point to
oversee the beach and ensure the safety of the Public swimming at Newport Beach.
Countless time critical rescues have been first visualized from the clubhouse given its vicinity
to the beach and uninterrupted views of the beach conditions. If our clubhouse had not been
there, there is no way some of these rescues would have happened.
Pleas consider the safety of Newport Beach beach goers when making this decision, you could
be saving their life.
