RE: DA2019/0200 - 130 Old Pittwater Road BROOKVALE NSW 2100

My submission is that the DA be refused on the grounds of its likelihood to conflict with the aims clearly stated in Council's very comprehensive document: Allenby Park, Allambie Heights , Plan of Management. Throughout more than 100 pages, covering all aspects of this park's value, its almost unique status in an urban setting, and setting down detailed, strict guidelines for protecting it from damage- including encroachment- there are manifold reasons for rejecting such an application as is now before Council.

It should not be up to concerned citizens in the area to mount a case against the proposal; Council already has such a case and I would urge you most strongly to apply the criteria painstakingly established.

There have been very dubious compromises in the past - for a number of reasons -leading to errors which should not be repeated. Further damage to the park must not occur. Council has a clear duty to stand by its own , clearly articulated, management plan for this important asset.

I look forward to hearing your determination.

With thanks, Meredith Goulding
