RE: DA2021/2567 - 60 Federal Parade BROOKVALE NSW 2100

As a local resident, I object to this proposal as it demonstrates no understanding of the current traffic issues in this residential area, presents no realistically valid argument as to how this proposal will assist in alleviating any of the current traffic issues in the area, and generally shows little regard to the local residents of the immediately surrounding community.

I trust that a decision on this proposal will be made in the best interests of the local residents.
