**RE: DA2020/0661 - 7356 / 1167221 Huston Parade NORTH CURL CURL NSW 2099**

I strongly oppose the installation of a new telecommunications facility at John Fisher Park, Abbott Rd, Curl Curl.

There has not been enough scientific research in regards to the effects on health (immunity), environment and wildlife of the impact of new 5G technology.

There are also concerns with regard to the aesthetics of the equipment and the possible negative impact on property prices.

I am aware of several countries around the world having put a total stop to the installation of 5g equipment for the very reasons stated above.

Unless reliable & accurate scientific reports can be provided in relation to the short term and long term impacts of 5G on the health of humans, animals, plants and the environment on a whole, this installation must not go ahead.

Regards

Lucy Kelly
