**RE: Mod2021/0816 - 8 Forest Road WARRIEWOOD NSW 2102**

Living very close to where this development is planned to be I hold serious concerns around transport capacity and school capacity, the roads around us at the moment are at capacity. This is a family area, I myself have two young children and I am worried about what adding another couple of hundred cars just up the road will mean to traffic congestion, parking, noise pollution. Currently there are no pedestrian crossings up this side of Warriewood it would be so unsafe, the parks are already so full, what is the plan on making the local primary and high schools larger as I believe they are also full? There are a ton of houses being built on the other side of the rocket park I just don't see how everything will work stuffing so many people into a small area with small roads without affecting our current lifestyle. Again real concerns around the traffic on Macpherson Street
