RE: DA2020/1233 - 68 - 90 Evans Street FRESHWATER NSW 2096

This bowling green was an integral part of the original DA approval and formed part of the reasoning behind the approval from the regional planning panel. It was sold as an intergenerational community hub, and it's important that is maintained. Play grounds for children, and 'playgrounds' for the elderly. In these times we need outdoor activities and community for our mental wellbeing.
