Subject: Development Application DA2022/0145 - 4 Delmar Pde, Dee Why.

We write to lodge our objection to the above DA on the ground of the height of the development and it's adverse impact on Stony Range, the very significant botanic reserve lying due south of the proposed development.

Stony Range has been the focus for many years of dedicated volunteers nurturing native plants characteristic of the Northern Beaches. It is truly incredible what has been achieved and we hope all Councillors have taken the opportunity to visit.. The overshadowing by an 8 storey development on their northern boundary would permanently impact a large area of this most important botanic garden.

We urge you to refuse this damaging DA.

Faithfully

Michael and Sarah Lawrence
55 Bungan Head road Newport
