Subject: Re: FW: Request for Services Progress - DA2019/0953 - 1 Warriewood Road
WARRIEWOOD

Hi,

Ausgrid does not have any objection for the following development, however the applicant/developer should note the following comments below regarding any proposal within the proximity of existing electrical network assets.

Underground Cables

Special care should also be taken to ensure that driveways and any other construction activities within the footpath area do not interfere with the existing cables in the footpath. Ausgrid cannot guarantee the depth of cables due to possible changes in ground levels from previous activities after the cables were installed. Hence it is recommended that the developer locate and record the depth of all known underground services prior to any excavation in the area.

Safework Australia – Excavation Code of Practice, and Ausgrid’s Network Standard NS156 outlines the minimum requirements for working around Ausgrid’s underground cables.

Should ground anchors be required in the vicinity of the underground cables, the anchors must not be installed within 300mm of any cable, and the anchors must not pass over the top of any cable.

Regards,

David Su
