RE: DA2020/1063 - 2 / 0 Bennett Street CURL CURL NSW 2096

This does not seem to be a fair process?
How do people that are not in the local LGA get to have a say in this?
The people who will be directly affected by the implications of severe traffic congestion, noise and light pollution should be able to be heard!

I am a resident on the other side of Harbord Road and I am concerned about the noise that will travel in the evening across to us.

I am also raising my concerns of traffic issues and I don't see why such a large amount of taxpayers money is being put towards more lighting when there is sufficient lit playing fields in the area that often sit empty.

I oppose this proposal for flood lighting!
