Subject: War Vets Mobile phone access

Hi Ray,

I'm writing to you to urge a re-consideration of the decision to deny the War Vets village standard mobile reception.

In this day mobile reception is considered essential a day to day function.

I've currently have my land line down and if I did not have a mobile the task of solving this issue would become so much more difficult and this is just one instance.

The village are not rejecting the need for a tower so I cannot see any solid reason for the council to refuse it.

PLEASE reconsider this.

Many thanks.

Regards
David Ineson
