Frenchs forest NSW 2086

RE: REV2021/0045 - 5 Skyline Place FRENCHS FOREST NSW 2086

I Strongly Object to the further development of 5 Skyline place Frenchs Forest.
As Residents We have been subjected to Out of Hours Noise - destroying of our Trees and greenery ,loss of parking due to clear way restrictions ,no additional green space for recreation and over development in our residential area. Our roads are already congested with Hospital staff and visitor parking in Bimbadeen Crescent .The Hospital Transport Study completed in November 2016 specifically identified that "No Major growth is suitable for the area south of Warringah Road or East of Wakehurst Parkway " - ear marked as unsuitable for growth - and does not include any major development outside the "central Zone "for 20 years. Since 2015 we as Frenchs Forest residents have endured many years of disruptions , illegal removal of trees ,construction noise outside regulated hours and total disregard for the inconvenience in our neighbourhood. Please tell me how The Jardin developers can be advertising Stage 2 when this plan has not to date been approved - Does this indicate Coercion within our local Council ?

Please register my objection to further development at 5 Skyline Place
Thankyou
Tracy Dickerson.
