

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2024/1313
----------------------------	-------------

Responsible Officer:	Kye Miles
Land to be developed (Address):	Lot CP SP 3128, 157 Ocean Street NARRABEEN NSW 2101
Proposed Development:	Alterations and additions to a residential flat building
Zoning:	Warringah LEP2011 - Land zoned R2 Low Density Residential
Development Permissible:	No
Existing Use Rights:	Yes
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Applicant:	Woodhouse & Danks Pty Ltd

Application Lodged:	11/10/2024
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	18/10/2024 to 01/11/2024
Advertised:	Not Advertised
Submissions Received:	0
Clause 4.6 Variation:	4.3 Height of buildings: 21.18%
Recommendation:	Approval

Estimated Cost of Works:	\$ 600,000.00
---------------------------------	---------------

PROPOSED DEVELOPMENT IN DETAIL

Development application for alterations and additions to a residential flat building. The works comprise:

- Refurbishment and replacement of damaged balconies.
- Reconstruction of existing driveway.
- Cosmetic upgrades, including, repainting of exterior walls and replace garage doors
- Construction of new front fence.

The proposed development seek to vary Clause 4.3 height of buildings of Warringah Local Environmental Plan 2011, of more than 10% for an existing residential flat building. Previously, all variations of more than 10% to the height of buildings development standard for class 2-9 buildings

were required to be determined by the Northern Beaches Local Planning Panel.

However on the 7 February 2024, the Northern Beaches Local Planning Panel determined delegations to the Chief Executive Officer (General Manager) of Northern Beaches Council the functions of the panel in relation to development applications and modification applications in the following circumstances:

1. *where there is a pre-existing non-compliance of more than 10% for a class 2-9 building under clause 4.3 Height of buildings of the Manly Local Environmental Plan 2013, Pittwater Local Environmental Plan 2014 or Warringah Local Environmental Plan 2011, and the development does not result in any increase in the overall/maximum non-compliance.*
2. *where there is a pre-existing non-compliance of more than 10% for a class 2-9 building under clause 4.4 Floor space ratio of Manly Local Environmental Plan 2013, Pittwater Local Environmental Plan 2014 or Warringah Local Environmental Plan 2011 and the development does:*
 - a. not result in changes to the extent of the building envelope; and*
 - b. results in only minor increase to the gross floor area (for example balcony enclosure or similar).*

In this instance, there is a pre-existing non-compliance of more than 10% for the residential flat building under clause 4.3 Height of buildings of Warringah Local Environmental Plan, and the development does not result in any increase in the overall/maximum non-compliance. Therefore, the Development Application may be determined by delegations to the Chief Executive Officer (General Manager) of Northern Beaches Council.

AMENDED PLANS

Following a preliminary assessment of the application, Council issued an RFI to the applicant on 7 January 2025, outlining concerns with the application.

The concerns related to privacy and works on Council land.

The applicant submitted amended plans to address the concerns on 30 January 2025, including:

- Frosted glass balustrades.
- Relocate proposed fence and letterbox entirely within the property boundaries.

Community Participation Plan

The proposed amendments and additional information will have a reduced environmental impact on the adjoining properties when compared to the original proposal. Therefore, formal re-notification is not required in accordance with Northern Beaches Community Participation Plan.

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act

1979, and the associated regulations;

- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral to relevant internal and external bodies in accordance with the Act, Regulations and relevant Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Warringah Local Environmental Plan 2011 - 4.3 Height of buildings

Warringah Local Environmental Plan 2011 - Zone R2 Low Density Residential

Warringah Development Control Plan - D8 Privacy

Warringah Development Control Plan - D9 Building Bulk

Warringah Development Control Plan - D13 Front Fences and Front Walls

SITE DESCRIPTION

Property Description:	Lot CP SP 3128 , 157 Ocean Street NARRABEEN NSW 2101
Detailed Site Description:	<p>The subject site consists of one allotment located on the eastern side of Ocean Street within the Narrabeen locality.</p> <p>The site is rectangular in shape with a frontage of 15.2 metres (m) to Ocean Streett and a depth of 66.3m. The site has a surveyed area of 1,016 square metres (sqm).</p> <p>The site is located within the R2 Low Density Residential zone pursuant to the Warringah Local Environmental Plan 2011 (WLEP) and accommodates a three storey residential flat building.</p> <p>The site experiences a slight fall towards the eastern boundary that adjoins Narrabeen Beach.</p> <p>The surrounding built environment is characterised by a mix of dwelling houses, dual occupancies and residential flat buildings.</p>

Map:

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

Section 4.15 Matters for Consideration	Comments
Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on “Environmental Planning Instruments” in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	There are no current draft environmental planning instruments.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Warringah Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the	<u>Part 4, Division 2</u> of the EP&A Regulation 2021 requires the consent authority to consider "Prescribed conditions" of development consent.

Section 4.15 Matters for Consideration	Comments
Environmental Planning and Assessment Regulation 2021 (EP&A Regulation 2021)	These matters have been addressed via a condition of consent. <u>Clause 69</u> of the EP&A Regulation 2021 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built environment and social and economic impacts in the locality	<p>(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan section in this report.</p> <p>(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal.</p> <p>(iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.</p>
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on “Notification & Submissions Received” in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

- **Does the existing use satisfy the definition of "existing use" under the *Environmental Planning and Assessment Act 1979* (the ‘Act’)?**

Section 4.65 of the Act defines an existing use as:

"(a) the use of a building, work or land for a lawful purpose immediately before the coming into force of an environmental planning instrument which would, but for this Division, have the effect of prohibiting that use, and

(b) the use of a building, work or land:

- (i) for which development consent was granted before the commencement of a provision of an environmental planning instrument having the effect of prohibiting the use, and*
- (ii) that has been carried out, within one year after the date on which that provision commenced, in accordance with the terms of the consent and to such an extent as to ensure (apart from that provision) that the development consent would not lapse."*

This necessarily requires the following questions to be answered:

1. Was the use of the land for a lawful purpose immediately before the coming into force of an environmental planning instrument which would, but for this Division, have the effect of prohibiting that use?

Comment:

There is evidence in the form of previous approvals provided by the applicant along with information on Council's database, which reveals that the use of the land commenced as a lawful purpose prior to the coming into force of Warringah Local Environmental Plan 2011 on 9 December 2011.

2. Was the use of the land granted development consent before the commencement of a provision of an environmental planning instrument having the effect of prohibiting the use?

Comment:

The building's Strata Plan was registered on 18 December 1967, prior to the coming into force of Warringah Local Environmental Plan 2011 on 9 December 2011.

3. Has the use of the land been carried out within one year after the date on which that provision commenced, in accordance with the terms of the consent and to such an extent as to ensure (apart from that provision) that the development consent would not lapse?

Comment:

The land has continued to be used as a residential flat building since the time of approval, which is within one year from the date on which the provision having the effect of prohibiting the use commenced.

- **What is “the land on which the existing use was carried out” for the purposes of cl 162-167 of the Environmental Planning and Assessment Regulation 2021 (“the Regulation”)?**

Meagher JA in *Steedman v Baulkham Hills Shire Council [No. 1] (1991) 87 LGERA 26* stated (at 27) the rule to be applied as follows: “if the land is rightly regarded as a unit and it is found that part of its area was physically used for the purpose in question it follows that the land was used for that purpose”.

Comment:

Having regard to the above case law, it is noted that the whole of the area of the land was physically used for the purpose in question and therefore, it is considered that the land was used for that purpose and that existing use rights apply to the whole of the subject site.

- **What are the planning principles that should be adopted in dealing with an application to alter enlarge or rebuild and existing use?**

The judgement in *Fodor Investments v Hornsby Shire Council (2005) NSWLEC 71*, sets out the planning principles that should be applied in dealing with development applications seeking to carry out development on the basis of existing use rights. The principles of *Fodor Investments v Hornsby Shire Council (2005) NSWLEC 71* however have been varied by more recent judgements of the Court to the extent described in *Saffioti v Kiama Municipal Council [2019] NSWLEC 57* and *Made property Group Pty Ltd v North Sydney Council [2020] NSWLEC 1332* in that the planning controls apply to the existing use provided they do not derogate, due to the planning controls within an EPI being 'incorporated provisions' and therefore matters for consideration as described within Clause 4.67 of the Environmental Planning and Assessment Act, 1979.

The following four principles adopted by the NSW Land and Environment Court in this case will have general application in dealing with development applications that rely on existing use rights:

1. How do the bulk and scale (as expressed by height, floor space ratio and setbacks) of the proposal relate to what is permissible on surrounding sites?

While planning controls, such as height, floor space ratio and setbacks do not apply to sites with existing use rights; they have relevance to the assessment of applications on such sites. This is because the controls apply to surrounding sites and indicate the kind of development that can be expected if and when surrounding sites are redeveloped. The relationship of new development to its existing and likely future context is a matter to be considered in all planning assessments.

Comment:

The proposed development largely involve repair works that are minor in nature and do not accentuate any unduly building bulk. Overall, the built form relates appropriately to surrounding sites.

2. What is the relevance of the building in which the existing use takes place?

Where the change of use is proposed within an existing building, the bulk and scale of that building are likely to be deemed acceptable, even if the building is out of scale with its surroundings, because it already exists. However, where the existing building is proposed for demolition, while its bulk is clearly an important consideration, there is no automatic entitlement to another building of the same floor space ratio, height or parking provision.

Comment:

No change of use is proposed.

3. What are the impacts on adjoining land?

The impact on adjoining land should be assessed as it is assessed for all development. It is true that where, for example, a development control plan requires three hours of sunlight to be maintained in adjoining rear yards, the numerical control does not apply. However, the overshadowing impact on adjoining rear yards should be reasonable.

Comment:

Impacts on adjoining land have been assessed throughout this report. In summary, the proposal is appropriately sited from the boundaries to preserve the amenity of the adjoining land. Overall, the proposal will not have unreasonable impacts beyond general expectations for development of the lot.

4. What is the internal amenity?

Internal amenity must be assessed as it is assessed for all development. Again, numerical requirements for sunlight access or private open space do not apply, but these and other aspects must be judged acceptable as a matter of good planning and design. None of the legal principles discussed above suggests that development on sites with existing use rights may have lower amenity than development generally.

Comment:

Internal amenity will be maintained for the subject development.

Conclusion

The use has been approved under a previous environmental planning instrument and, therefore, is a lawful use. Subsequently, the use can be retained under the current environmental planning instrument.

BUSHFIRE PRONE LAND

The site is not classified as bush fire prone land.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject application has been publicly exhibited from 18/10/2024 to 01/11/2024 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2021 and the Community Participation Plan.

As a result of the public exhibition of the application Council received no submissions.

REFERRALS

Internal Referral Body	Comments
Building Assessment - Fire and Disability upgrades	<p>The application has been investigated with respect to aspects relevant to the Building Certification and Fire Safety Department. There are no objections to approval of the development.</p> <p>Note: The proposed development may not comply with some requirements of the BCA. Issues such as these however may be determined at Construction Certificate stage.</p> <p>Note: Building Approvals will not impose a requirement on this DA to upgrade the fire services as noted in the report by Murrow Consulting as the upgrade works relate to external elements and do not affect the existing services or habitable portions of the building. It is proposed to refer the report to Councils Fire Control Team to follow up as a separate matter.</p>
NECC (Bushland and Biodiversity)	The proposed alterations and additions to the existing building will not result in impacts to the terrestrial ecological values, does not propose the removal of any significant vegetation, and therefore complies with the requirements of the State Environmental Planning

Internal Referral Body	Comments
	<p>Policy (Resilience and Hazards) 2021 cl Clause 2.10(1) Coastal Environment Area and Warringah DCP 2001 control E4 Wildlife Corridors. The proposed works relate to the existing building and driveway, with no impacts on the wildlife corridor or existing vegetation is likely to result.</p>
NECC (Coast and Catchments)	<p>The proposed works involve alterations and additions to an existing residential flat building. The extent of the works is contained within the existing building envelope and largely relate to aesthetic improvements and repairs. Therefore the proposal is not expected to impact coastal processes or access and use of the coastal environment. The proposal has been assessed against the following:</p> <p>The Coastal Management Act 2016 The subject site has been identified as being within the coastal zone and therefore the Coastal Management Act 2016 is applicable to this DA. The proposed development is considered to be consistent with the objects, as set out under Part 1 Section 3 of the Coastal Management Act 2016.</p> <p>State Environmental Planning Policy (Resilience & Hazards) 2021. The subject land has been included on the 'Coastal Environment Area' and 'Coastal Use Area' maps under the State Environmental Planning Policy (Resilience & Hazards) 2021 (SEPP). Hence, Clauses 2.10, 2.11 and 2.12 of the CM (R & H) apply for this DA. On internal assessment the DA satisfies requirements under clauses 2.10, 2.11 and 2.12 of the SEPP. As such, it is considered that the application does comply with the requirements of the State Environmental Planning Policy (Resilience & Hazards) 2021.</p> <p>Warringah LEP 2011 and Warringah DCP 2011 The proposal is considered to comply with clause 6.5 of Warringah LEP 2011 and E9 of Warringah DCP 2011.</p> <p>The Coastal Zone Management Plan For Collaroy-Narrabeen Beach and Fishermans Beach The proposal is considered to comply with requirements of the Coastal Zone Management Plan For Collaroy-Narrabeen Beach and Fishermans Beach.</p>
NECC (Development Engineering)	<p>15/11/2024: Development application is for alterations and additions to the existing residential flat building including replacement of the existing internal driveway. Development Engineering have no objections to approval subject to conditions as recommended.</p>
Parks, reserves, beaches, foreshore	<p>The property adjoins Narrabeen beach to the east. No physical encroachments over the site boundaries are permitted, and</p>

Internal Referral Body	Comments
	structures and built elements are not permitted beyond the site boundaries. All development works must ensure that surface sediment runoff and/or erosion is controlled, managed and contained within the site boundaries.

External Referral Body	Comments
Ausgrid - SEPP (Transport and Infrastructure) 2021, s2.48	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable subject to compliance with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice. These recommendations will be included as a condition of consent.
Aboriginal Heritage Office	<p>Reference is made to the proposed development at the above area and Aboriginal heritage.</p> <p>No sites are recorded in the current development area and the area has been subject to previous disturbance reducing the likelihood of surviving unrecorded Aboriginal sites.</p> <p>According to the Due Diligence Code of Practice, any land within 200m of water is considered to have Aboriginal heritage sensitivity and the potential to contain Aboriginal sites.</p> <p>Under the National Parks and Wildlife Act 1974 (NPW Act) all Aboriginal objects are protected. Should anything thought to be Aboriginal Cultural Heritage items be uncovered during earthworks, works should cease in the area and the Aboriginal Heritage Office be contacted. In line with our normal advice for sandy areas, the Aboriginal Heritage Office recommends that the development conditions should provide for stop work provisions (unexpected discovery protocol) in the unlikely event that human remains are uncovered. Should human remains be uncovered, works must cease and the NSW Police must be contacted.</p> <p>Under the National Parks and Wildlife Act 1974 (NPW Act) all Aboriginal objects are protected. Should any Aboriginal Cultural Heritage items be uncovered during earthworks, works should cease in the area and the Aboriginal Heritage Office assess the finds. Under Section 89a of the NPW Act should the objects be found to be Aboriginal, Heritage NSW and the Metropolitan Local Aboriginal Land Council (MLALC) should be contacted.</p>

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIS)*

All, Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP (Housing) 2021

Application of Chapter

Clause 144 of State Environmental Planning Policy Housing 2021 (SEPP Housing) stipulates that:

(1) This chapter applies to development only if:

(a) the development consists of:

- (i) the erection of a new building,
- (ii) the substantial redevelopment or the substantial refurbishment of an existing building, or
- (iii) the conversion of an existing building, and

(b) the building concerned is at least 3 or more storeys, not including underground car parking storeys, and

(c) the building contains at least 4 dwellings.

As the proposal at large only seeks consent for the construction of a new front fence, replacing the existing driveway, install new balustrades and other minor cosmetic changes. The proposal is not considered a substantial redevelopment as the internal layout, density, overall height and building footprint is unchanged.

Accordingly, no further consideration of this Policy is required in this instance.

SEPP (Transport and Infrastructure) 2021

Ausgrid

Section 2.48 of Chapter 2 requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

- within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).
- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

Comment:

The proposal was referred to Ausgrid who raised no objections, subject to conditions which have been

included in the recommendation of this report.

SEPP (Resilience and Hazards) 2021

Chapter 2 – Coastal Management

The site is subject to Chapter 2 of the SEPP. Accordingly, an assessment under Chapter 2 has been carried out as follows:

Division 3 Coastal environment area

2.10 Development on land within the coastal environment area

- 1) Development consent must not be granted to development on land that is within the coastal environment area unless the consent authority has considered whether the proposed development is likely to cause an adverse impact on the following:
 - a) the integrity and resilience of the biophysical, hydrological (surface and groundwater) and ecological environment,
 - b) coastal environmental values and natural coastal processes,
 - c) the water quality of the marine estate (within the meaning of the Marine Estate Management Act 2014), in particular, the cumulative impacts of the proposed development on any of the sensitive coastal lakes identified in Schedule 1,
 - d) marine vegetation, native vegetation and fauna and their habitats, undeveloped headlands and rock platforms,
 - e) existing public open space and safe access to and along the foreshore, beach, headland or rock platform for members of the public, including persons with a disability,
 - f) Aboriginal cultural heritage, practices and places,
 - g) the use of the surf zone.

Comment:

The proposed development is not considered likely to cause an adverse impact on the integrity and resilience of the biophysical, hydrological (surface and groundwater) and ecological environment, coastal environmental values and natural coastal processes, the water quality of the marine estate, native vegetation and fauna and their habitats, public open space or aboriginal cultural heritage.

- 2) Development consent must not be granted to development on land to which this clause applies unless the consent authority is satisfied that:
 - a) the development is designed, sited and will be managed to avoid an adverse impact referred to in subsection (1), or
 - b) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or
 - c) if that impact cannot be minimised—the development will be managed to mitigate that impact.

Comment:

The development is designed, sited and will be managed to avoid an adverse impact referred to in subclause (1).

Division 4 Coastal use area

2.11 Development on land within the coastal use area

- 1) Development consent must not be granted to development on land that is within the coastal use area unless the consent authority:
 - a) has considered whether the proposed development is likely to cause an adverse impact on the following:
 - i) existing, safe access to and along the foreshore, beach, headland or rock platform for members of the public, including persons with a disability,
 - ii) overshadowing, wind funnelling and the loss of views from public places to foreshores,
 - iv) foreshores,
 - v) the visual amenity and scenic qualities of the coast, including coastal headlands, Aboriginal cultural heritage, practices and places, cultural and built environment heritage, and
 - b) is satisfied that:
 - i) the development is designed, sited and will be managed to avoid an
 - ii) adverse impact referred to in paragraph (a), or
 - iii) if that impact cannot be reasonably avoided—the development is designed, sited and will be managed to minimise that impact, or if that impact cannot be minimised—the development will be managed to mitigate that impact, and
 - c) has taken into account the surrounding coastal and built environment, and the bulk, scale and size of the proposed development.

Comment:

The proposed development is not considered likely to cause an adverse impact on safe access to and along the foreshore, overshadowing, wind funnelling and the loss of views from public places to foreshores, the visual amenity and scenic qualities of the coast, including coastal headlands, or cultural and built environment heritage.

Division 5 General

2.12 Development in coastal zone generally—development not to increase risk of coastal hazards

Development consent must not be granted to development on land within the coastal zone unless the consent authority is satisfied that the proposed development is not likely to cause increased risk of coastal hazards on that land or other land.

Comment:

The proposed development is not likely to cause increased risk of coastal hazards on that land or other land.

2.13 Development in coastal zone generally—coastal management programs to be considered

Development consent must not be granted to development on land within the coastal zone unless the

consent authority has taken into consideration the relevant provisions of any certified coastal management program that applies to the land.

Comment:

The relevant provisions of any certified coastal management program that applies to the land have been considered.

As such, it is considered that the application complies with the requirements of Chapter 2 of the State Environmental Planning Policy (Resilience and Hazards) 2021.

Chapter 4 – Remediation of Land

Sub-section 4.6 (1)(a) of Chapter 4 requires the Consent Authority to consider whether land is contaminated. Council records indicate that the subject site has been used for residential purposes for a significant period of time with no prior land uses. In this regard it is considered that the site poses no risk of contamination and therefore, no further consideration is required under sub-section 4.6 (1)(b) and (c) of this Chapter and the land is considered to be suitable for the residential land use.

Warringah Local Environmental Plan 2011

Is the development permissible?	No
After consideration of the merits of the proposal, is the development consistent with:	
aims of the LEP?	Yes
zone objectives of the LEP?	Yes

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	10.3m	21.18%	No

Compliance Assessment

Clause	Compliance with Requirements
4.3 Height of buildings	No (see detail under Clause 4.6 below)
4.6 Exceptions to development standards	Yes
6.1 Acid sulfate soils	Yes
6.5 Coastline hazards	Yes

Detailed Assessment

Zone R2 Low Density Residential

Land use definition: WLEP 2011	Permitted or Prohibited
--------------------------------	-------------------------

<p>Residential Flat Building - means a building containing 3 or more dwellings, but does not include an attached dwelling, co-living housing or multi dwelling housing.</p>	<p>Prohibited</p>
--	--------------------------

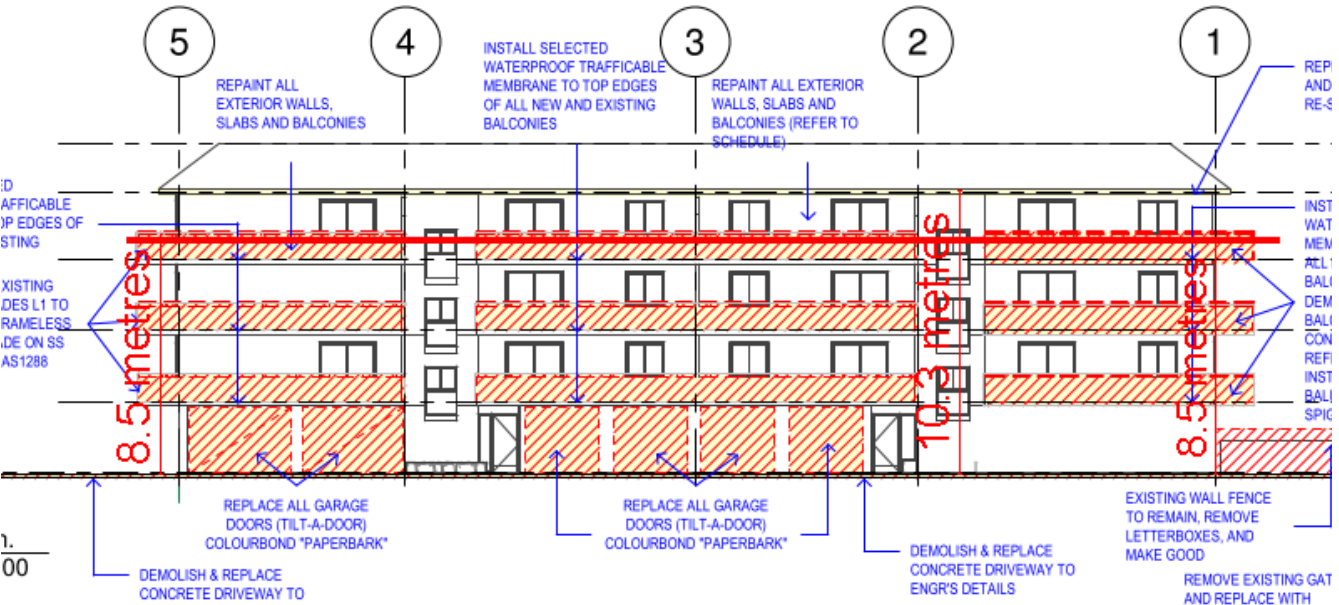

The proposal is for the alterations and additions to, what is considered as equivalent to an existing residential flat building. Under WLEP 2011, shop to housing is a prohibited land use within the R2 Low Density Residential zone.

However, the application relies on existing use rights, as the development was approved prior to WLEP 2011 coming into force. Refer to the detailed discussion under 'Existing Use Rights'. As existing use rights can be established to apply to the land and the development, the proposal is therefore permissible with consent, notwithstanding the prohibition that applies in the zone.

4.6 Exceptions to development standards

The application seeks consent to vary a development standard as follows:

- Development standard:** Clause 4.3
- Requirement:** 8.5m
- Proposed:** 10.3m
- Percentage of variation:** 21.18%

With reference to Section 35B of the *Environmental Planning and Assessment Regulation 2021*, the development application is accompanied by a document that sets out the grounds on which the Applicant seeks to demonstrate the matters set out in Clause 4.6(3)(a) and (b) of the WLEP 2011 (the 'Clause 4.6 Request').

Subclause (1) of this clause provides that:

- (1) *The objectives of this clause are as follows:*
- (a) *to provide an appropriate degree of flexibility in applying certain development standards to particular development,*

(b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.

Comment:

The objectives of this clause have been considered pursuant to Section 4.15(a)(i) of the *Environmental Planning and Assessment Act 1979*.

Subclause (2) of this clause provides that:

(2) Development consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.

Comment:

Clause 4.3 is not expressly excluded from the operation of this clause.

Subclause (3) of this clause provides that:

(3) Development consent must not be granted to development that contravenes a development standard unless the consent authority is satisfied the applicant has demonstrated that—

(a) compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and

Comment:

Council is satisfied that the Applicant has demonstrated that compliance with Clause 4.3 is unreasonable or unnecessary in the circumstances of this application.

(b) there are sufficient environmental planning grounds to justify contravening the development standard.

Comment:

In the matter of *Initial Action Pty Ltd v Woollahra Municipal Council [2018] NSWLEC 118*, Preston CJ provides the following guidance (para 23) to inform the consent authority's finding that the Applicant's written request has adequately demonstrated that there are sufficient environmental planning grounds to justify contravening the development standard:

'As to the second matter required by cl 4.6(3)(b), the grounds relied on by the applicant in the written request under cl 4.6 must be "environmental planning grounds" by their nature: see Four2Five Pty Ltd v Ashfield Council [2015] NSWLEC 90 at [26]. The adjectival phrase "environmental planning" is not defined, but would refer to grounds that relate to the subject matter, scope and purpose of the EPA Act, including the objects in s 1.3 of the EPA Act.'

The Clause 4.6 Request argues, in part:

- *The site has an existing maximum building height of 12.01m. The proposed works relate to the replacement and refurbishment of the existing building at a maximum height of 10.3m.*

- *The proposed development is consistent with the existing building height for the site and the works do not increase the height any further. Further, the building falls under existing use rights and its considered that the planning controls are not enforceable due to the variation existing and land use.*
- *The breach to the building is considered acceptable as it relates to the existing approved building height, bulk and scale.*
- *The breach will have no adverse impacts on neighbouring properties and will not result in a building of an unacceptable bulk and scale.*
- *The proposed development does not result in any adverse privacy or overshadowing impacts to neighbouring properties or any public place.*

Council is satisfied that the Applicant has demonstrated that there are sufficient environmental planning grounds to justify the contravention of Clause 4.3 for the following reasons:

It is agreed the proposed balustrading and repair works do not alter the existing building height whilst also not resulting in any unreasonable additional bulk and scale. The visual outcome of the proposed works upon the streetscape and surrounding properties is therefore considered acceptable.

The proposed development is an orderly and economic use and development of the land, and that the structure is of a good design that will reasonably protect and improve the amenity of the surrounding built environment, thereby satisfying objects 1.3(c) and (g) of the EPA Act.

Public Interest:

Matters relevant to public interest in respect of the development are considered in the relevant sections of this report as per Section 4.15(1)(e) of the EPA Act.

Conclusion:

Council is satisfied as to the matters set out in Clause 4.6 of the WLEP 2011.

It is considered on balance, that having regard to the particular circumstances, the proposed departure from the development standard is acceptable and it is reasonable that flexibility to the standard be applied.

Warringah Development Control Plan

Built Form Controls

The proposal involves remedial works to the existing building, driveway and front fence. No alterations or additions are proposed to the existing built form.

Compliance Assessment

Clause	Compliance with Requirements	Consistency Aims/Objectives
A.5 Objectives	Yes	Yes
C2 Traffic, Access and Safety	Yes	Yes
C3 Parking Facilities	Yes	Yes
C4 Stormwater	Yes	Yes
C7 Excavation and Landfill	Yes	Yes

Clause	Compliance with Requirements	Consistency Aims/Objectives
C8 Demolition and Construction	Yes	Yes
C9 Waste Management	Yes	Yes
D1 Landscaped Open Space and Bushland Setting	Yes	Yes
D2 Private Open Space	Yes	Yes
D3 Noise	Yes	Yes
D6 Access to Sunlight	Yes	Yes
D7 Views	Yes	Yes
D8 Privacy	Yes	Yes
D9 Building Bulk	Yes	Yes
D10 Building Colours and Materials	Yes	Yes
D11 Roofs	Yes	Yes
D12 Glare and Reflection	Yes	Yes
D13 Front Fences and Front Walls	Yes	Yes
E7 Development on land adjoining public open space	Yes	Yes
E9 Coastline Hazard	Yes	Yes

Detailed Assessment

D8 Privacy

Merit consideration

The existing northern side balconies, currently positioned 1.9 metres from the boundary, are proposed to include new glass balustrades. While elevated balconies oriented toward and in close proximity to side boundaries are typically discouraged due to potential overlooking impacts, this proposal does not enlarge the existing structures.

To mitigate any potential impacts amended plans were requested for the proposed balustrades to be appropriately treated. The applicant amended the application to include frosted glass balustrades to ensure that existing privacy between buildings is maintained.

Overall, the proposed development as amended has been thoughtfully designed to prevent significant visual privacy impacts. Additional privacy treatments are not recommended for these elements.

D9 Building Bulk

Compliance with the control

The proposed works involve replacing the existing concrete balcony balustrades with glass balustrades. This change is intended to soften the bulk and scale impacts on surrounding sites and the streetscape. As outlined elsewhere in this report, the proposed additions do not exceed the existing maximum building height of the development. The proposal is therefore considered consistent with the objectives of Clause D9, Building Bulk, of the WDCP 2011.

D13 Front Fences and Front Walls

Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

- *To ensure that fencing, terracing and retaining walls are compatible with the existing streetscape character while creating visual interest in the public domain.*

Comment:

The proposal seeks consent for a new masonry and timber front fence with a maximum height of 1.2 metres. Front fences and walls are a common feature of the visual catchment and the proposed fencing style is acceptable. Overall, it is considered that the proposal will provide an acceptable level of visual interest in the public domain.

- *To encourage innovative design solutions to improve the urban environment.*

Comment:

The proposal will result in acceptable streetscape outcomes, which will improve the urban environment.

- *To avoid a 'walled in' streetscape.*

Comment:

The proposed front fence's modest overall height will not result in the "walling in" of the street.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2024

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2024.

A monetary contribution of \$6,000 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$600,000.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2021;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

Council is satisfied that the Applicant's written request under Clause 4.6 of the Warringah Local Environmental Plan 2011 seeking to justify variation of the development standard contained within Clause 4.3 Height of Buildings has adequately addressed and demonstrated that:

- Compliance with the development standard is unreasonable or unnecessary in the circumstances of the case; and
- There are sufficient environmental planning grounds to justify the variation.

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

That Northern Beaches Council, as the consent authority, vary the development standard contained within Clause 4.3 Height of Buildings, pursuant to Clause 4.6 of the Warringah Local Environmental Plan 2011 because the Applicant's written request has adequately addressed the merits required to be demonstrated by subclause (3) of Clause 4.6.

Accordingly Council as the consent authority grant Development Consent to DA2024/1313 for Alterations and additions to a residential flat building on land at Lot CP SP 3128, 157 Ocean Street, NARRABEEN, subject to the conditions printed below:

Terms and Reasons for Conditions

Under section 88(1)(c) of the EP&A Regulation, the consent authority must provide the terms of all conditions and reasons for imposing the conditions other than the conditions prescribed under section 4.17(11) of the EP&A Act. The terms of the conditions and reasons are set out below.

GENERAL CONDITIONS

1. Approved Plans and Supporting Documentation

Development must be carried out in accordance with the following approved plans (stamped by Council) and supporting documentation, except where the conditions of this consent expressly require otherwise.

Approved Plans				
Plan Number	Revision Number	Plan Title	Drawn By	Date of Plan
DA-02	B	Site Plan	Woodhouse & Danks Architects	23 January 2025
DA-03	B	Ground Floor Plan	Woodhouse & Danks Architects	23 January 2025
DA-04	B	Demolition Plan	Woodhouse & Danks Architects	23 January 2025
DA-05	B	First Floor plan	Woodhouse & Danks Architects	23 January 2025

Approved Reports and Documentation			
Document Title	Version Number	Prepared By	Date of Document
BCA Compliance Assessment Report	A	Murrow Consulting	30 May 2024
Waste Management Plan	-	Listed Applicant	-

In the event of any inconsistency between the approved plans, reports and documentation, the approved plans prevail.

In the event of any inconsistency between the approved plans and a condition of this consent, the condition prevails.

Reason: To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

2. Compliance with Other Department, Authority or Service Requirements

The development must be carried out in compliance with all recommendations and requirements, excluding general advice, within the following:

Other Department, Authority or Service	EDMS Reference	Dated
Ausgrid	Ausgrid Referral Response	25 October 2024
Aboriginal Heritage Office (AHO)	AHO Referral Response	17 October 2024

(NOTE: For a copy of the above referenced document/s, please see Application Tracking on Council's website www.northernbeaches.nsw.gov.au)

Reason: To ensure the work is carried out in accordance with the determination and the statutory requirements of other departments, authorities or bodies.

3. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);

- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
- (i) showing the name, address and telephone number of the Principal Certifier for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
- (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifier for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
- (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

4. General Requirements

- (a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

- 8.00 am to 5.00 pm Monday to Friday only.

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Construction certificate plans are to be in accordance with all finished levels identified on approved plans. Notes attached to plans indicating tolerances to levels are not approved.
- (c) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (d) At all times after the submission of the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of an Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (e) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (f) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (g) Prior to the release of the Construction Certificate, payment of the following is required:
- i) Long Service Levy - Payment should be made to Service NSW (online or in person) or alternatively to Northern Beaches Council in person at a Customer Service Centre. Payment is not required where the value of the works is less than \$250,000. The Long Service Levy is calculated on 0.25% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
 - ii) Section 7.11 or Section 7.12 Contributions Plan – Payment must be made to Northern Beaches Council. Where the subject land to which the development is proposed is subject to either a Section 7.11 or 7.12 Contributions Plan, any contribution to which the development is liable under the respective plan that applies is to be paid to Council. The outstanding contribution will be indexed at time of payment in accordance with the relevant Contributions Plan.
 - iii) Housing and Productivity Contribution - Payment must be made on the NSW Planning Portal for development to which this contribution applies. The amount payable is subject to indexation at the time of payment.

- (h) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (i) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (j) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (k) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.), on the land to be developed, or within adjoining properties, shall be removed or damaged during excavation or construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (l) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.
- (m) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (n) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (o) Should any construction cranes be utilised on site, they are to be fitted with bird deterrents along the counterweight to discourage raptor (bird) nesting activity. Deterrents are to remain in place until cranes are dismantled. Selection of deterrent methods is to be undertaken in accordance with the recommendations of a suitably qualified ecologist.
- (p) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:
 - (i) Swimming Pools Act 1992
 - (ii) Swimming Pools Amendment Act 2009
 - (iii) Swimming Pools Regulation 2018
 - (iv) Australian Standard AS1926 Swimming Pool Safety

- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
 - (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
 - (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
 - (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

5. Policy Controls

Northern Beaches Section 7.12 Contributions Plan 2024

A monetary contribution of \$6,000.00 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan (as amended).

The monetary contribution is based on a development cost of \$600,000.00.

The total amount payable will be adjusted at the time the payment is made, in accordance with the provisions of the Northern Beaches Section 7.12 Contributions Plan (as amended).

Details demonstrating compliance, by way of written receipts issued by Council, are to be submitted to the Certifier prior to issue of any Construction Certificate or, if relevant, the Subdivision Certificate (whichever occurs first).

A copy of the Contributions Plan is available for inspection at 725 Pittwater Road, Dee Why or on Council's website at Northern Beaches Council - Development Contributions.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

6. Security Bond

A bond (determined from cost of works) of \$2,000 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifier prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

BUILDING WORK – BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE

7. Stormwater Disposal

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's Water Management for Development Policy. Details by an appropriately qualified and practicing Civil or Hydraulic Engineer demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with Council's policy are to be submitted to the Certifier for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal of stormwater management arising from the development.

8. Off Street Parking Design

The Applicant shall submit a design for the parking facility in accordance with the relevant provisions of Australian/New Zealand Standard AS/NZS 2890.1:2004 parking facilities - Off-street car parking, in particular Section 2.4.5 Physical Controls and Section 2.6 Design of Domestic Driveways.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of the Construction Certificate.

Reason: Compliance with this consent.

9. Boundary Identification Survey

A boundary identification survey, prepared by a Registered Surveyor, shall be provided in respect of the subject site.

The plans submitted for the Construction Certificate are to accurately reflect the property boundaries as shown on the boundary identification survey, with setbacks between the property boundaries and the approved works consistent with those nominated on the Approved Plans of this consent.

Details demonstrating compliance are to be submitted to the Certifier prior to the issue of any Construction Certificate.

Reason: To ensure all approved works are constructed within the subject site and in a manner anticipated by the development consent.

10. **Sydney Water "Tap In"**

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifier demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details - see <http://www.sydneywater.com.au/tapin>
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

DURING BUILDING WORK

11. **Wildlife Protection**

If construction activity associated with this development results in injury or displacement of a native mammal, bird, reptile or amphibian, a licensed wildlife rescue and rehabilitation organisation must be contacted for advice.

Reason: To protect native wildlife.

12. **Road Reserve**

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

13. **No Access Through Land Owned or Managed by Council**

Site access is not approved for delivery of materials nor construction of the development through adjacent land owned or managed by Council, without the written approval of Council.

Reason: Public safety, landscape amenity and tree protection.

14. **Storage of Materials on Land Owned or Managed by Council Prohibited**

The dumping or storage of building materials, spoil, vegetation, green waste or any other material in land owned or managed by Council is prohibited.

Reason: Public safety and environmental protection.

15. **Protection of Council's Public Assets**

Any damage to Council's public assets shall be made good by the applicant, and/or the contractor, to the satisfaction of Council.

Council's public assets include, but is not limited to, the following: road, kerb and gutters, crossovers, crossings, paths, grass verge, open space and associated elements such as furniture, recreational facilities and the like, within the meaning of the Local Government Act 1993.

Existing trees shall be protected in accordance with AS4970-2009 Protection of Trees on Development Sites, with particular reference to Section 4, with no ground intrusion into the tree protection zone and no trunk, branch nor canopy disturbance.

Reason: To protect and/or restore any damaged public asset.

16. **Survey Certificate**

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifier when the external structure of the building is complete.

Reason: To demonstrate the proposal complies with the approved plans.

17. **Waste Management During Development**

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifier.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

BEFORE ISSUE OF THE OCCUPATION CERTIFICATE

18. **No Weeds Imported On To The Site**

No Priority or environmental weeds (as specified in the Northern Beaches Local Weed Management Plan) are to be imported on to the site prior to or during construction works.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to issue of any Occupation Certificate.

Reason: To reduce the risk of site works contributing to spread of Priority and environmental weeds.

19. **Stormwater Disposal**

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of an Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

20. **Certification of Off Street Parking Works**

The Applicant shall submit a certificate from a suitably qualified person certifying that the parking facility was constructed in accordance within this development consent and the relevant provisions of Australian/New Zealand Standard AS/NZS 2890.1:2004 parking facilities - Off-street car parking, in particular Section 2.4.5 Physical Controls and Section 2.6 Design of Domestic Driveways.

Details demonstrating compliance are to be submitted to the Principal Certifier prior to the issue of the Occupation Certificate.

Reason: Compliance with this consent.

21. **Waste Management Confirmation**

Prior to the issue of an Occupation Certificate, evidence / documentation must be submitted to the Principal Certifier that all waste material from the development site arising from demolition and/or construction works has been appropriately recycled, reused or disposed of generally in accordance with the approved Waste Management Plan.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Kye Miles, Planner

The application is determined on 05/02/2025, under the delegated authority of:

Peter Robinson, Manager Development Assessments
