

DEVELOPMENT APPLICATION ASSESSMENT REPORT

Application Number:	DA2021/1017

Responsible Officer:	Phil Lane
Land to be developed (Address):	Lot 2 SP 43819, 2 / 24 Plateau Road COLLAROY PLATEAU NSW 2097
Proposed Development:	Alterations and additions to a Dwelling within an attached dual occupancy development
Zoning:	Warringah LEP2011 - Land zoned R2 Low Density Residential
Development Permissible:	No
Existing Use Rights:	Yes
Consent Authority:	Northern Beaches Council
Land and Environment Court Action:	No
Owner:	The Owners of Strata Plan 43819
Applicant:	Add-Style Home Additions

Application Lodged:	07/07/2021
Integrated Development:	No
Designated Development:	No
State Reporting Category:	Residential - Alterations and additions
Notified:	15/07/2021 to 29/07/2021
Advertised:	Not Advertised
Submissions Received:	1
Clause 4.6 Variation:	Nil
Recommendation:	Approval

Estimated Cost of Works:	\$ 245,180.00	
---------------------------------	---------------	--

PROPOSED DEVELOPMENT IN DETAIL

"Construct an upper level addition comprising of:

- Two bedrooms each serviced by a sitting room and a bathroom; and
- An Internal staircase accessing lower level.

Internal alterations to the ground floor of the existing dwelling include:

- The demolition of internal walls;
- Replace existing sliding doors in the rear elevation; and
- Install an internal staircase accessing the upper level."

DA2021/1017 Page 1 of 31

External works also include:

- Demolish of a garden bed on the northern side boundary (front setback area); and
- Single carport

ASSESSMENT INTRODUCTION

The application has been assessed in accordance with the requirements of the Environmental Planning and Assessment Act 1979 and the associated Regulations. In this regard:

- An assessment report and recommendation has been prepared (the subject of this report) taking into account all relevant provisions of the Environmental Planning and Assessment Act 1979, and the associated regulations;
- A site inspection was conducted and consideration has been given to the impacts of the development upon the subject site and adjoining, surrounding and nearby properties;
- Notification to adjoining and surrounding properties, advertisement (where required) and referral
 to relevant internal and external bodies in accordance with the Act, Regulations and relevant
 Development Control Plan;
- A review and consideration of all submissions made by the public and community interest groups in relation to the application;
- A review and consideration of all documentation provided with the application (up to the time of determination);
- A review and consideration of all referral comments provided by the relevant Council Officers, State Government Authorities/Agencies and Federal Government Authorities/Agencies on the proposal.

SUMMARY OF ASSESSMENT ISSUES

Warringah Local Environmental Plan 2011 - Zone R2 Low Density Residential

Warringah Development Control Plan - B3 Side Boundary Envelope

Warringah Development Control Plan - B5 Side Boundary Setbacks

Warringah Development Control Plan - B7 Front Boundary Setbacks

Warringah Development Control Plan - D6 Access to Sunlight

Warringah Development Control Plan - D8 Privacy

SITE DESCRIPTION

Property Description:	Lot 2 SP 43819 , 2 / 24 Plateau Road COLLAROY PLATEAU NSW 2097
Detailed Site Description:	The subject site consists of one (1) allotment located on the eastern side of David Road and western side of Plateau Road.
	The site is irregular in shape with a frontage of 14.25m along David Road and a depth of 19.2m. The site has a surveyed area of 195m ² .
	The site is located within the R2 Low Density

DA2021/1017 Page 2 of 31

Residential zone and accommodates single storey dwelling with an attached carport and landscape gardens. The subject site is unique in that it has a second frontage to David Road and contains two dwellings (under Strata Title - dual occupancy).

The site slopes gently from the north to the south with a sloping grade of 7%.

The site has a mix of native and exotic plants, shrubs and trees.

Detailed Description of Adjoining/Surrounding Development

Adjoining and surrounding development is characterised by one and two storey dwellings with associated outbuildings/structures and landscaped gardens. A childcare centre is located next door (northern side) at 26 Plateau Road known as Collaroy Plateau Early Learning Centre.

SITE HISTORY

A search of Council's records has revealed that there are no recent or relevant applications for this site.

The land has been used for residential purposes for an extended period of time.

ENVIRONMENTAL PLANNING AND ASSESSMENT ACT, 1979 (EPAA)

The relevant matters for consideration under the Environmental Planning and Assessment Act, 1979, are:

DA2021/1017 Page 3 of 31

Section 4.15 Matters for	Comments
Consideration' Section 4.15 (1) (a)(i) – Provisions of any environmental planning instrument	See discussion on "Environmental Planning Instruments" in this report.
Section 4.15 (1) (a)(ii) – Provisions of any draft environmental planning instrument	Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.
Section 4.15 (1) (a)(iii) – Provisions of any development control plan	Warringah Development Control Plan applies to this proposal.
Section 4.15 (1) (a)(iiia) – Provisions of any planning agreement	None applicable.
Section 4.15 (1) (a)(iv) – Provisions of the Environmental Planning and Assessment Regulation 2000 (EP&A Regulation 2000)	<u>Division 8A</u> of the EP&A Regulation 2000 requires the consent authority to consider "Prescribed conditions" of development consent. These matters have been addressed via a condition of consent.
regulation 2000)	Clauses 54 and 109 of the EP&A Regulation 2000 allow Council to request additional information. Additional information was requested in relation to Shadow Diagrams. Amended shadow diagrams was received on 23 August 2021 to address these matters.
	Clause 92 of the EP&A Regulation 2000 requires the consent authority to consider AS 2601 - 1991: The Demolition of Structures. This matter has been addressed via a condition of consent.
	Clauses 93 and/or 94 of the EP&A Regulation 2000 requires the consent authority to consider the upgrading of a building (including fire safety upgrade of development). This matter has been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider insurance requirements under the Home Building Act 1989. This matter has been addressed via a condition of consent.
	Clause 98 of the EP&A Regulation 2000 requires the consent authority to consider the provisions of the Building Code of Australia (BCA). This matter has been addressed via a condition of consent.
Section 4.15 (1) (b) – the likely impacts of the development, including environmental impacts on the natural and built	(i) Environmental Impact The environmental impacts of the proposed development on the natural and built environment are addressed under the Warringah Development Control Plan section in this report.

DA2021/1017 Page 4 of 31

Section 4.15 Matters for Consideration'	Comments
environment and social and economic impacts in the locality	(ii) Social Impact The proposed development will not have a detrimental social impact in the locality considering the character of the proposal. (iii) Economic Impact The proposed development will not have a detrimental economic impact on the locality considering the nature of the existing and proposed land use.
Section 4.15 (1) (c) – the suitability of the site for the development	The site is considered suitable for the proposed development.
Section 4.15 (1) (d) – any submissions made in accordance with the EPA Act or EPA Regs	See discussion on "Notification & Submissions Received" in this report.
Section 4.15 (1) (e) – the public interest	No matters have arisen in this assessment that would justify the refusal of the application in the public interest.

EXISTING USE RIGHTS

• Does the existing use satisfy the definition of "existing use" under the *Environmental Planning and Assessment Act 1979* (the 'Act')?

Section 4.65 of the Act defines an existing use as:

"(a) the use of a building, work or land for a lawful purpose immediately before the coming into force of an environmental planning instrument which would, but for Division 4A of Part 3 or Division 4 of this Part, have the effect of prohibiting that use, and

ensure (apart from that provision) that the development consent would not lapse."

- (b) the use of a building, work or land:
 - (i) for which development consent was granted before the commencement of a provision of an environmental planning instrument having the effect of prohibiting the use, and (ii) that has been carried out, within one year after the date on which that provision commenced, in accordance with the terms of the consent and to such an extent as to

This necessarily requires the following questions to be answered:

1. Was the use of the building, work or land a lawful purpose immediately before the coming into force of an environmental planning instrument which would, but for Division 4A of Part 3 or Division 4 of this Part 4 of the Act, have the effect of prohibiting that use?

Comment:

The Applicant has provided evidence in the form of SP43819 registered 24 May 1993, which reveals that the use of the building / work / land commenced as a lawful purpose on 24 May 1993, prior to the

DA2021/1017 Page 5 of 31

coming into force of Warringah Local Environmental Plan 2011 on 9 December 2011.

2. Was the use of the building / work / land granted development consent before the commencement of a provision of an environmental planning instrument having the effect of prohibiting the use?

Comment:

The use of the via the strata plan (SP43819 registered 24 May 1993) was issued prior to the coming into force of Warringah Local Environmental Plan 2011 on 9 December 2011.

3. Has the use of the building / work / land been carried out within one year after the date on which that provision commenced, in accordance with the terms of the consent and to such an extent as to ensure (apart from that provision) that the development consent would not lapse?

Comment:

The Applicant has provided evidence in the form of SP43819, which reveals that the use of the building / work / land was carried out on 24 May 1993, which is within one year from the date on which the provision having the effect of prohibiting the use commenced.

• What is "the land on which the existing use was carried out" for the purposes of cl 42(2) (b) of the Environmental Planning and Assessment Regulation 2000 ("the Regulation")?

Meagher JA in Steedman v Baulkham Hills Shire Council [No. 1] (1991) 87 LGERA 26 stated (at 27) the rule to be applied as follows: "if the land is rightly regarded as a unit and it is found that part of its area was physically used for the purpose in question it follows that the land was used for that purpose".

Comment:

Having regard to the above case law, it is noted that the whole of the area of the land was physically used for the purpose in question and therefore, it is considered that the land was used for that purpose and that existing use rights apply to the whole of the subject site.

 What are the planning principles that should be adopted in dealing with an application to alter enlarge or rebuild and existing use?

The judgement in *Fodor Investments v Hornsby Shire Council (2005) NSWLEC 71*, sets out the planning principles that should be applied in dealing with development applications seeking to carry out development on the basis of existing use rights.

The following four principles adopted by the NSW Land and Environment Court in this case will have general application in dealing with development applications that rely on existing use rights:

1. How do the bulk and scale (as expressed by height, floor space ratio and setbacks) of the proposal relate to what is permissible on surrounding sites?

DA2021/1017 Page 6 of 31

While planning controls, such as height, floor space ratio and setbacks do not apply to sites with existing use rights; they have relevance to the assessment of applications on such sites. This is because the controls apply to surrounding sites and indicate the kind of development that can be expected if and when surrounding sites are redeveloped. The relationship of new development to its existing and likely future context is a matter to be considered in all planning assessments.

Comment:

The proposal demonstrates compliance with the building height control and is considered to be consistent with surrounding dwellings/buildings within the vicinity.

2. What is the relevance of the building in which the existing use takes place?

Where the change of use is proposed within an existing building, the bulk and scale of that building are likely to be deemed acceptable, even if the building is out of scale with its surroundings, because it already exists. However, where the existing building is proposed for demolition, while its bulk is clearly an important consideration, there is no automatic entitlement to another building of the same floor space ratio, height or parking provision.

Comment:

The proposal dual occupancy will remain and proposed alterations and additions to the dwelling at 2/24 Plateau Road is considered to be bulk and scale which is acceptable.

3. What are the impacts on adjoining land?

The impact on adjoining land should be assessed as it is assessed for all development. It is true that where, for example, a development control plan requires three hours of sunlight to be maintained in adjoining rear yards, the numerical control does not apply. However, the overshadowing impact on adjoining rear yards should be reasonable.

Comment:

Council has assessed this application and considered the submission from the adjoining neighbouring property and considered that the proposal satisfies the relevant parts of the Warringah Local Environmental Plan 2011 and Warringah Development Control Plan 2011.

4. What is the internal amenity?

Internal amenity must be assessed as it is assessed for all development. Again, numerical requirements for sunlight access or private open space do not apply, but these and other aspects must be judged acceptable as a matter of good planning and design. None of the legal principles discussed above suggests that development on sites with existing use rights may have lower amenity than development generally.

Comment:

Internal amenity has been assessed as acceptable.

Conclusion

The use has been approved under a previous environmental planning instrument (WLEP 1985) and, therefore, is a lawful use. Subsequently, the use can be retained under the current environmental

DA2021/1017 Page 7 of 31

planning instrument (WLEP 2011). **BUSHFIRE PRONE LAND**

The site is classified as bush fire prone land. Section 4.14 of the Environmental Planning and Assessment Act 1979 requires Council to be satisfied that the development conforms to the specifications and requirements of the version (as prescribed by the regulations) of the document entitled Planning for Bush Fire Protection.

A Bush Fire Report was submitted with the application that included a certificate (prepared by Bushfire Planning & Design, dated 1 July 2021) stating that the development conforms to the relevant specifications and requirements within Planning for Bush Fire Protection. The recommendations of the Bush Fire Report have been included as conditions of consent.

NOTIFICATION & SUBMISSIONS RECEIVED

The subject development application has been publicly exhibited from 15/07/2021 to 29/07/2021 in accordance with the Environmental Planning and Assessment Act 1979, Environmental Planning and Assessment Regulation 2000 and the Community Participation Plan.

As a result of the public exhibition process council is in receipt of 1 submission/s from:

Name:	Address:
Mrs Lena Cavallaro	22 Plateau Road COLLAROY PLATEAU NSW 2097

The following issues were raised in the submissions and each have been addressed below:

- Solar access;
- Privacy; and
- Reduction of first floor

The matters raised within the submissions are addressed as follows:

Solar access

"It will also cause significant shadowing from the sun into our kitchen and reduce the amount of sunlight on our balcony and front rooms."

<u>Comment:</u> A reviewed of the revised shadow diagrams demonstrates there will some impacts on solar access to the dwelling at 22 Plateau Road after 12pm during the winter solstice, which is considered acceptable given the minor additional shadowing created by the proposal. It is noted that solar access to the principal private open space including the swimming pool area will be complaint with Clause D6 Access to Sunlight of the Warringah Development Control Plan 2011.

Given the above it is considered that this matter does not warrant refusal and/or amendment via condition(s).

Privacy

"Based on the NORTH ELEVATION of the master plan this indicates that the new structure will

DA2021/1017 Page 8 of 31

come right up to the existing structure of our dwelling (22 Plateau Road). This will cause our property to look directly into their structure and cause a lack of privacy."

<u>Comment:</u> The elevations that will looking towards 22 Plateau Road are southern and eastern elevations. The windows on the eastern elevations are setback behind the proposed ensuite and walk in robe preventing views to 22 Plateau Road. The window (W5) for the master bedroom on the southern elevation has been identified as possibly have privacy issues for 22 Plateau Road and therefore will be conditioned to obscured and fixed on the lower portion of the window. This will ensure privacy for both parties.

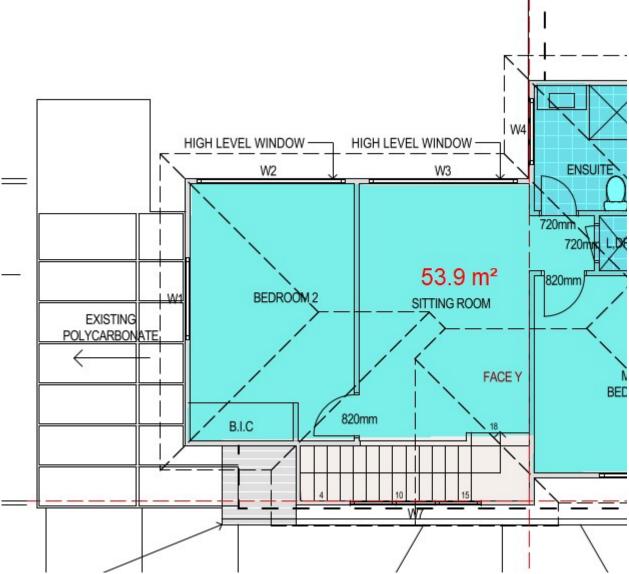

Figure 2: Demonstrates window (W5) southern elevation and ensuite/walk in robe blocking views to 22 Plateau Road from the eastern facing windows (W2 & W3)

Given the above it is considered that this matter does not warrant refusal and subject to condition is supportable.

Reduction of first floor

"We are proposing that the structure only go as far as the lower ground bedroom and or second window on the plan, which would see the new structure lose about a meter and a half from the

DA2021/1017 Page 9 of 31

proposed structure."

Comment: The proposed first floor is very modest in size (only 53.9sqm in area as demonstrated above in Figure 2) and is fully compliant with the building height, wall height, rear and side setbacks. The proposed building height is 7.1m (overall) and is 1.4m below the allowable height limit of 8.5m. The proposal is non-compliant with the southern boundary envelope control and this has been addressed in the report. It is noted that the first floor is stepped from the ground floor level demonstrating a setback of 1.4m from the southern side boundary (see Figure 3 below) ensuring the development demonstrates good articulation and spatial separation to the dwelling at 22 Plateau Road.

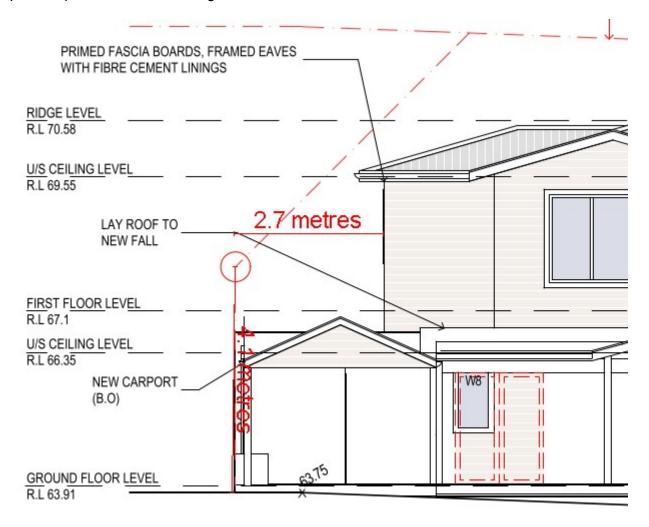

Figure 3: Demonstrates good side relief to the southern boundary and good articulation

Given the above it is considered that this matter does not warrant refusal and/or amendment via condition(s).

REFERRALS

Internal Referral Body	Comments
Building Assessment - Fire	The application has been investigated with respects to aspects
and Disability upgrades	relevant to the Building Certification and Fire Safety Department.

DA2021/1017 Page 10 of 31

Internal Referral Body	Comments
	There are no objections to approval of the development subject to inclusion of the attached conditions of approval and consideration of the notes below.
	Note: The proposed development may not comply with some requirements of the BCA and the Premises Standards. Issues such as this however may be determined at Construction Certificate Stage.
Landscape Officer	This application is for the alterations and additions to an existing residential dwelling. Alterations include the minor demolition of internal walls as well as the replacement of existing sliding doors towards the rear. An internal staircase is also proposed to facilitate a first floor addition with two bedrooms, bathroom as well as sitting room.
	Councils Landscape Referral section has considered the application against the Warringah Local Environment Plan, and the following Warringah DCP 2011 controls:
	 D1 Landscaped Open Space and Bushland Setting E1 Preservation of Trees or Bushland Vegetation
	The Statement of Environmental Effects provided with the application notes that the proposal will not have an adverse effect on native vegetation and there are no trees requiring removal to facilitate proposed works. As the proposed works are largely confined to the existing building footprint this is largely supported, however upon review of the Architectural plans, the proposed carport will require the removal of an existing planter bed that supports a number of palms. These palms are considered exempt and therefore do not require approval prior to being removed. No further impacts to existing trees and vegetation is evident.
	Concern is raised regarding the limited planting along the western boundary at the front of the site. As the proposal seeks to increase the overall built form, the concern stems from the impacts this will have on overall streetscape. Additional screen planting is required along this western boundary in order to effectively soften this increase in built form, as well as to provide a positive contribution to the broader streetscape character. The implementation of this additional screen planting is vital to satisfy control D1, as key objectives of this control include "to enable planting to maintain and enhance the streetscape", "to provide for landscape open space with dimensions that are sufficient to enable the establishment of low lying shrubs, medium high shrubs and canopy trees of a size and density to mitigate the height, bulk and scale of the building", as well as "to enhance privacy between buildings".
	The landscape component of the proposal is therefore supported subject to the protection of existing trees and vegetation, as well as the implementation of additional screening planting at the front of the

DA2021/1017 Page 11 of 31

Internal Referral Body	Comments
	site to mitigate the increase in overall built form.
	Development Engineering has no objection to the application subject to the following conditions of consent.

External Referral Body	Comments
	The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable and no conditions required in this instance.

ENVIRONMENTAL PLANNING INSTRUMENTS (EPIs)*

All, Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the merit assessment of this application.

In this regard, whilst all provisions of each Environmental Planning Instruments (SEPPs, REPs and LEPs), Development Controls Plans and Council Policies have been considered in the assessment, many provisions contained within the document are not relevant or are enacting, definitions and operational provisions which the proposal is considered to be acceptable against.

As such, an assessment is provided against the controls relevant to the merit consideration of the application hereunder.

State Environmental Planning Policies (SEPPs) and State Regional Environmental Plans (SREPs)

SEPP 55 - Remediation of Land

Draft State Environmental Planning Policy (Remediation of Land) seeks to replace the existing SEPP No. 55 (Remediation of Land). Public consultation on the draft policy was completed on 13 April 2018. The subject site has been used for residential purposes for an extended period of time. The proposed development retains the residential use of the site, and is not considered a contamination risk.

SEPP (Building Sustainability Index: BASIX) 2004

A BASIX certificate has been submitted with the application (see Certificate No. A420770 dated 17 June 2021).

A condition has been included in the recommendation of this report requiring compliance with the commitments indicated in the BASIX Certificate.

SEPP (Infrastructure) 2007

Ausgrid

Clause 45 of the SEPP requires the Consent Authority to consider any development application (or an application for modification of consent) for any development carried out:

• within or immediately adjacent to an easement for electricity purposes (whether or not the electricity infrastructure exists).

DA2021/1017 Page 12 of 31

- immediately adjacent to an electricity substation.
- within 5.0m of an overhead power line.
- includes installation of a swimming pool any part of which is: within 30m of a structure supporting an overhead electricity transmission line and/or within 5.0m of an overhead electricity power line.

<u>Comment:</u> The proposal was referred to Ausgrid who provided a response stating that the proposal is acceptable and no conditions required in this instance.

Warringah Local Environmental Plan 2011

Is the development permissible?	No	
After consideration of the merits of the proposal, is the development consistent with:		
aims of the LEP?		
zone objectives of the LEP?	Yes	

Principal Development Standards

Standard	Requirement	Proposed	% Variation	Complies
Height of Buildings:	8.5m	5.9m - 7.1m	N/A	Yes

Compliance Assessment

Part 4 Principal development standards	Yes
4.3 Height of buildings	Yes
Part 6 Additional Local Provisions	Yes
6.2 Earthworks	Yes
6.4 Development on sloping land	Yes

Detailed Assessment

Zone R2 Low Density Residential

Land use definition: WLEP 2011	Permitted or Prohibited
dual occupancy means a dual occupancy (attached) or a dual occupancy (detached).	Prohibited

DA2021/1017 Page 13 of 31

Note-

Dual occupancies are a type of residential accommodation—see the definition of that term in this Dictionary.

The underlying objectives of the R2 Low Density Residential zone:

• To provide for the housing needs of the community within a low density residential environment.

Comment:

The proposal maintains housing within a low density residential environment.

It is considered that the development satisfies this objective.

 To enable other land uses that provide facilities or services to meet the day to day needs of residents.

Comment:

The proposal will not prevent other land uses that provide facilities or services to residents within the vicinity.

It is considered that the development satisfies this objective.

• To ensure that low density residential environments are characterised by landscaped settings that are in harmony with the natural environment of Warringah.

Comment:

The proposal will maintain and has been conditioned for additional landscaping to ensure this merit consideration is satisfied.

It is considered that the development satisfies this objective.

Detailed Assessment

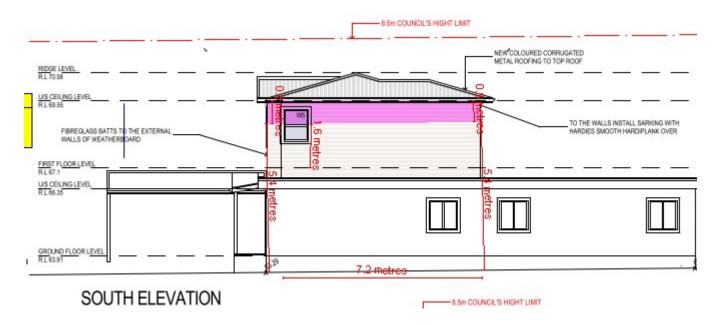

B3 Side Boundary Envelope

Description of non-compliance

The control requires that a building must be sited within the building envelope which is determined by projecting planes at 45° from a height of 5m above the ground level at the side boundary.

The proposed first floor encroaches into the side boundary envelope along the southern elevation to a height of 0.8m for a length of 7.2m, representing a minor variation of 20%.

The dwelling is compliant with this control on the northern elevation.

Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

To ensure that development does not become visually dominant by virtue of its height and bulk.

Comment:

DA2021/1017 Page 16 of 31

The proposed non-compliance with the building envelope control is not found to cause any unreasonable visual impacts. The proposed works are situated within the existing building footprint and below the maximum permissible building height. The proposal is also appropriately setback from the side boundary and is sufficiently articulated to satisfy the objective. The overall built form is generally consistent with that of surrounding development.

 To ensure adequate light, solar access and privacy by providing spatial separation between buildings.

Comment:

The application has demonstrated that the proposal will not have an unreasonable impact with regards to solar access. The adjoining properties will maintained solar access in accordance with the DCP requirements.

To ensure that development responds to the topography of the site.

Comment:

The proposed development does not require substantial alteration to the natural topography of the site. It is considered that the proposal is appropriately designed to respond to the site topography. No unreasonable streetscape or amenity impacts are expected to arise as a consequence of the development.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported, in this particular circumstance.

B5 Side Boundary Setbacks

Description of non-compliance

The proposed 0.2m side setback to the carport is non-compliant with the 0.9m control.

Merit consideration

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

To provide opportunities for deep soil landscape areas.

Comment:

The proposed carport side setback non-compliance occurs over the existing driveway and will not reduce deep soil areas on the site. The proposed landscaped area complies with the 40% control.

DA2021/1017 Page 17 of 31

To ensure that development does not become visually dominant.

Comment:

The proposed carport is not visually dominant despite the side setback breach.

To ensure that the scale and bulk of buildings is minimised.

Comment:

The proposed carport is an open, low-profile design and is of minimal scale and bulk.

 To provide adequate separation between buildings to ensure a reasonable level of privacy, amenity and solar access is maintained.

Comment:

The proposed unenclosed carport structure is adjacent to the secondary frontage (front yard) of 26 Plateau Road and will not unreasonably impact the privacy, amenity or solar access of the adjoining property.

To provide reasonable sharing of views to and from public and private properties.

Comment:

The proposal will not adversely impact views from surrounding properties or the public domain.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported in this particular circumstance.

B7 Front Boundary Setbacks

Description of non-compliance

The proposed 0.3m carport front setback is non-compliant with the 6.5m control.

Merit consideration:

With regard to the consideration for a variation, the development is considered against the underlying Objectives of the Control as follows:

To create a sense of openness.

Comment:

The proposed carport is limited in width and a sense of openness is maintained across the remainder of the site frontage.

• To maintain the visual continuity and pattern of buildings and landscape elements.

DA2021/1017 Page 18 of 31

Comment:

The proposed carport siting is consistent with that of existing car parking structures within the streetscape.

To protect and enhance the visual quality of streetscapes and public spaces.

Comment:

The proposal will not adversely impact the visual quality of the streetscape given the existence of similar structures within the visual catchment.

To achieve reasonable view sharing.

Comment:

The proposal maintains reasonable view sharing.

Having regard to the above assessment, it is concluded that the proposed development is consistent with the relevant objectives of WLEP 2011 / WDCP and the objectives specified in s1.3 of the Environmental Planning and Assessment Act, 1979. Accordingly, this assessment finds that the proposal is supported in this particular circumstance.

D6 Access to Sunlight

The proposal demonstrates compliance allowing at least 50% of the required area of private open space of each dwelling and at least 50% of the required area of private open space of adjoining dwelling are to receive a minimum of 3 hours of sunlight between 9am and 3pm on June 21.

D8 Privacy

Issue was raised by the adjoining property to the south (22 Plateau Road) about the proposed first floor addition looking into their house. A review of the plans demonstrates only one (1) window (W5) on the southern elevation which is a bedroom.

This window will be condition to be obscured on the lower portion and fitted (lower portion) to ensure reasonable amenity levels for both parties.

Window (W6) for the master bedroom facing directly west to David Road is considered to satisfy this clause.

THREATENED SPECIES, POPULATIONS OR ECOLOGICAL COMMUNITIES

The proposal will not significantly affect threatened species, populations or ecological communities, or their habitats.

CRIME PREVENTION THROUGH ENVIRONMENTAL DESIGN

The proposal is consistent with the principles of Crime Prevention Through Environmental Design.

DA2021/1017 Page 19 of 31

POLICY CONTROLS

Northern Beaches Section 7.12 Contributions Plan 2021

The proposal is subject to the application of Northern Beaches Section 7.12 Contributions Plan 2021.

A monetary contribution of \$2,452 is required for the provision of new and augmented public infrastructure. The contribution is calculated as 1% of the total development cost of \$245,180.

CONCLUSION

The site has been inspected and the application assessed having regard to all documentation submitted by the applicant and the provisions of:

- Environmental Planning and Assessment Act 1979;
- Environmental Planning and Assessment Regulation 2000;
- All relevant and draft Environmental Planning Instruments;
- Warringah Local Environment Plan;
- Warringah Development Control Plan; and
- Codes and Policies of Council.

This assessment has taken into consideration the submitted plans, Statement of Environmental Effects, all other documentation supporting the application and public submissions, and does not result in any unreasonable impacts on surrounding, adjoining, adjacent and nearby properties subject to the conditions contained within the recommendation.

In consideration of the proposal and the merit consideration of the development, the proposal is considered to be:

- Consistent with the objectives of the DCP
- Consistent with the zone objectives of the LEP
- Consistent with the aims of the LEP
- Consistent with the objectives of the relevant EPIs
- Consistent with the objects of the Environmental Planning and Assessment Act 1979

It is considered that the proposed development satisfies the appropriate controls and that all processes and assessments have been satisfactorily addressed.

RECOMMENDATION

THAT Council as the consent authority grant Development Consent to DA2021/1017 for Alterations and additions to a Dwelling within an attached dual occupancy development on land at Lot 2 SP 43819, 2 / 24 Plateau Road, COLLAROY PLATEAU, subject to the conditions printed below:

DEVELOPMENT CONSENT OPERATIONAL CONDITIONS

1. Approved Plans and Supporting Documentation

The development must be carried out in compliance (except as amended by any other condition of consent) with the following:

DA2021/1017 Page 20 of 31

a) Approved Plans

Architectural Plans - Endorsed with Council's stamp			
Drawing No. Dated Prepared By			
9352 DA 1 (Issue B)	18 June 2021	Add Style	

Reports / Documentation – All recommendations and requirements contained within:			
Report No. / Page No. / Section No.	Dated	Prepared By	
Bushfire Risk Assessment	1 July 2021	Bushfire Planning & Design	
Certificate of Existing Structural Adequacy	7 April 2021	Northern Beaches Consulting Engineers P/L	
Preliminary Geotechnical Assessment	29 June 2021	White Geotechnical Group	

- b) Any plans and / or documentation submitted to satisfy the Conditions of this consent.
- c) The development is to be undertaken generally in accordance with the following:

Waste Management Plan			
Drawing No/Title.	Dated	Prepared By	
Waste Management Plan	23 June 2021	Marcus Betts	

In the event of any inconsistency between conditions of this consent and the drawings/documents referred to above, the conditions of this consent will prevail.

Reason: To ensure the work is carried out in accordance with the determination of Council and approved plans.

2. Prescribed Conditions

- (a) All building works must be carried out in accordance with the requirements of the Building Code of Australia (BCA).
- (b) BASIX affected development must comply with the schedule of BASIX commitments specified within the submitted BASIX Certificate (demonstrated compliance upon plans/specifications is required prior to the issue of the Construction Certificate);
- (c) A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
 - (i) showing the name, address and telephone number of the Principal Certifying Authority for the work, and
 - (ii) showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted outside working hours, and
 - (iii) stating that unauthorised entry to the work site is prohibited.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been

DA2021/1017 Page 21 of 31

completed.

- (d) Residential building work within the meaning of the Home Building Act 1989 must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the following information:
 - (i) in the case of work for which a principal contractor is required to be appointed:
 - A. the name and licence number of the principal contractor, and
 - B. the name of the insurer by which the work is insured under Part 6 of that Act,
 - (ii) in the case of work to be done by an owner-builder:
 - A. the name of the owner-builder, and
 - B. if the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (not being the Council) has given the Council written notice of the updated information.

- (e) Development that involves an excavation that extends below the level of the base of the footings of a building on adjoining land, the person having the benefit of the development consent must, at the person's own expense:
 - (i) protect and support the adjoining premises from possible damage from the excavation, and
 - (ii) where necessary, underpin the adjoining premises to prevent any such damage.
 - (iii) must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished.
 - (iv) the owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land.

In this clause, allotment of land includes a public road and any other public place.

Reason: Legislative requirement.

3. **General Requirements**

(a) Unless authorised by Council:

Building construction and delivery of material hours are restricted to:

- 7.00 am to 5.00 pm inclusive Monday to Friday,
- 8.00 am to 1.00 pm inclusive on Saturday,
- No work on Sundays and Public Holidays.

Demolition and excavation works are restricted to:

8.00 am to 5.00 pm Monday to Friday only.

DA2021/1017 Page 22 of 31

(Excavation work includes the use of any excavation machinery and the use of jackhammers, rock breakers, excavators, loaders and the like, regardless of whether the activities disturb or alter the natural state of the existing ground stratum or are breaking up/removing materials from the site).

- (b) Should any asbestos be uncovered on site, its demolition and removal must be carried out in accordance with WorkCover requirements and the relevant Australian Standards.
- (c) At all times after the submission the Notice of Commencement to Council, a copy of the Development Consent and Construction Certificate is to remain onsite at all times until the issue of a final Occupation Certificate. The consent shall be available for perusal of any Authorised Officer.
- (d) Where demolition works have been completed and new construction works have not commenced within 4 weeks of the completion of the demolition works that area affected by the demolition works shall be fully stabilised and the site must be maintained in a safe and clean state until such time as new construction works commence.
- (e) Onsite toilet facilities (being either connected to the sewer or an accredited sewer management facility) for workers are to be provided for construction sites at a rate of 1 per 20 persons.
- (f) Prior to the release of the Construction Certificate, payment of the Long Service Levy is required. This payment can be made at Council or to the Long Services Payments Corporation. Payment is not required where the value of the works is less than \$25,000. The Long Service Levy is calculated on 0.35% of the building and construction work. The levy rate and level in which it applies is subject to legislative change. The applicable fee at the time of payment of the Long Service Levy will apply.
- (g) The applicant shall bear the cost of all works associated with the development that occurs on Council's property.
- (h) No skip bins, building materials, demolition or excavation waste of any nature, and no hoist, plant or machinery (crane, concrete pump or lift) shall be placed on Council's footpaths, roadways, parks or grass verges without Council Approval.
- (i) Demolition materials and builders' wastes are to be removed to approved waste/recycling centres.
- (j) No trees or native shrubs or understorey vegetation on public property (footpaths, roads, reserves, etc.) or on the land to be developed shall be removed or damaged during construction unless specifically approved in this consent including for the erection of any fences, hoardings or other temporary works.
- (k) Prior to the commencement of any development onsite for:
 - i) Building/s that are to be erected
 - ii) Building/s that are situated in the immediate vicinity of a public place and is dangerous to persons or property on or in the public place
 - iii) Building/s that are to be demolished
 - iv) For any work/s that is to be carried out
 - v) For any work/s that is to be demolished

The person responsible for the development site is to erect or install on or around the development area such temporary structures or appliances (wholly within the development site) as are necessary to protect persons or property and to prevent unauthorised access to the site in order for the land or premises to be maintained in a safe or healthy condition. Upon completion of the development, such temporary structures or appliances are to be removed within 7 days.

DA2021/1017 Page 23 of 31

- (I) A "Road Opening Permit" must be obtained from Council, and all appropriate charges paid, prior to commencement of any work on Council property. The owner/applicant shall be responsible for all public utilities and services in the area of the work, shall notify all relevant Authorities, and bear all costs associated with any repairs and/or adjustments as those Authorities may deem necessary.
- (m) The works must comply with the relevant Ausgrid Network Standards and SafeWork NSW Codes of Practice.
- (n) Requirements for new swimming pools/spas or existing swimming pools/spas affected by building works.
 - (1) Child resistant fencing is to be provided to any swimming pool or lockable cover to any spa containing water and is to be consistent with the following;

Relevant legislative requirements and relevant Australian Standards (including but not limited) to:

- (i) Swimming Pools Act 1992
- (ii) Swimming Pools Amendment Act 2009
- (iii) Swimming Pools Regulation 2018
- (iv) Australian Standard AS1926 Swimming Pool Safety
- (v) Australian Standard AS1926.1 Part 1: Safety barriers for swimming pools
- (vi) Australian Standard AS1926.2 Part 2: Location of safety barriers for swimming pools.
- (2) A 'KEEP WATCH' pool safety and aquatic based emergency sign, issued by Royal Life Saving is to be displayed in a prominent position within the pool/spa area.
- (3) Filter backwash waters shall be conveyed to the Sydney Water sewerage system in sewered areas or managed on-site in unsewered areas in a manner that does not cause pollution, erosion or run off, is separate from the irrigation area for any wastewater system and is separate from any onsite stormwater management system.
- (4) Swimming pools and spas must be registered with the Division of Local Government.

Reason: To ensure that works do not interfere with reasonable amenity expectations of residents and the community.

FEES / CHARGES / CONTRIBUTIONS

4. Policy Controls

Northern Beaches 7.12 Contributions Plan 2021

A monetary contribution of \$2,451.80 is payable to Northern Beaches Council for the provision of local infrastructure and services pursuant to section 7.12 of the Environmental Planning & Assessment Act 1979 and the Northern Beaches Section 7.12 Contributions Plan 2021. The monetary contribution is based on a development cost of \$245,180.00.

The monetary contribution is to be paid prior to the issue of the first Construction Certificate or Subdivision Certificate whichever occurs first, or prior to the issue of the Subdivision Certificate where no Construction Certificate is required. If the monetary contribution (total or in part) remains unpaid after the financial quarter that the development consent is issued, the amount

DA2021/1017 Page 24 of 31

unpaid (whether it be the full cash contribution or part thereof) will be adjusted on a quarterly basis in accordance with the applicable Consumer Price Index. If this situation applies, the cash contribution payable for this development will be the total unpaid monetary contribution as adjusted.

The proponent shall provide to the Certifying Authority written evidence (receipt/s) from Council that the total monetary contribution has been paid.

The Northern Beaches Section 7.12 Contributions Plan 2021 may be inspected at 725 Pittwater Rd, Dee Why and at Council's Customer Service Centres or alternatively, on Council's website at www.northernbeaches.nsw.gov.au

This fee must be paid prior to the issue of the Construction Certificate. Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To provide for contributions in accordance with the Contribution Plan to fund the provision of new or augmented local infrastructure and services.

5. Security Bond

A bond (determined from cost of works) of \$1,500 and an inspection fee in accordance with Council's Fees and Charges paid as security are required to ensure the rectification of any damage that may occur to the Council infrastructure contained within the road reserve adjoining the site as a result of construction or the transportation of materials and equipment to and from the development site.

An inspection fee in accordance with Council adopted fees and charges (at the time of payment) is payable for each kerb inspection as determined by Council (minimum (1) one inspection).

All bonds and fees shall be deposited with Council prior to Construction Certificate or demolition work commencing, and details demonstrating payment are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

To process the inspection fee and bond payment a Bond Lodgement Form must be completed with the payments (a copy of the form is attached to this consent and alternatively a copy is located on Council's website at www.northernbeaches.nsw.gov.au).

Reason: To ensure adequate protection of Council's infrastructure.

CONDITIONS TO BE SATISFIED PRIOR TO THE ISSUE OF THE CONSTRUCTION CERTIFICATE

6. **Stormwater Disposal**

The applicant is to demonstrate how stormwater from the new development within this consent is disposed of to an existing approved system or in accordance with Northern Beaches Council's WATER MANAGEMENT FOR DEVELOPMENT POLICY.

Details demonstrating that the existing approved stormwater system can accommodate the additional flows, or compliance with the Council's specification are to be submitted to the Certifying Authority for approval prior to the issue of the Construction Certificate.

Reason: To ensure appropriate provision for disposal and stormwater management arising from development.

DA2021/1017 Page 25 of 31

7. Compliance with Standards

The development is required to be carried out in accordance with all relevant Australian Standards.

Details demonstrating compliance with the relevant Australian Standard are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure the development is constructed in accordance with appropriate standards.

8. External Finishes to Roof

The external finish to the roof shall have a medium to dark range in order to minimise solar reflections to neighbouring properties. Any roof with a metallic steel finish is not permitted.

Details demonstrating compliance are to be submitted to the Certifying Authority prior to the issue of the Construction Certificate.

Reason: To ensure that excessive glare or reflectivity nuisance does not occur as a result of the development.

9. Sydney Water "Tap In"

The approved plans must be submitted to the Sydney Water Tap in service, prior to works commencing, to determine whether the development will affect any Sydney Water assets and/or easements. The appropriately stamped plans must then be submitted to the Certifying Authority demonstrating the works are in compliance with Sydney Water requirements.

Please refer to the website www.sydneywater.com.au for:

- "Tap in" details see http://www.sydneywater.com.au/tapin
- Guidelines for Building Over/Adjacent to Sydney Water Assets.

Or telephone 13 000 TAP IN (1300 082 746).

Reason: To ensure compliance with the statutory requirements of Sydney Water.

10. Window (W5) Southern Elevation

The Window (W5) for the master bedroom is to obscured and/or frosted glazing for the lower portion of window (minimum 1.5m above the first floor level). Additionally, this lower portion of the window is to be fixed (non-openable).

Reason: Demonstrate compliance with Clause D8 Privacy of Warringah Development Control Plan 2011.

CONDITIONS TO BE COMPLIED WITH DURING DEMOLITION AND BUILDING WORK

11. Protection of Existing Street Trees

All existing street trees in the vicinity of the works shall be retained during all construction stages, and the street trees fronting the development site shall be protected by tree protection fencing in accordance with Australian Standard 4687-2007 Temporary Fencing and Hoardings, and in accordance with Section 4 of Australian Standard 4970-2009 Protection of Trees on Development Sites.

As a minimum the tree protection fencing for street tree(s) fronting the development site shall consist of standard 2.4m panel length to four sides, unless otherwise directed by an Arborist with minimum AQF Level 5 in arboriculture.

DA2021/1017 Page 26 of 31

All fencing shall be located to allow for unrestricted and safe pedestrian access upon the road verge.

Should any problems arise with regard to the existing or proposed trees on public land during construction, Council's Tree Services section is to be contacted immediately to resolve the matter to Council's satisfaction and at the cost of the applicant.

Reason: Tree protection.

12. Tree and Vegetation Protection

- a) Existing trees and vegetation shall be retained and protected, including:
- i) all trees and vegetation within the site not approved for removal, excluding exempt trees and vegetation under the relevant planning instruments of legislation,
- ii) all trees and vegetation located on adjoining properties,
- iii) all road reserve trees and vegetation.
- b) Tree protection shall be undertaken as follows:
- i) tree protection shall be in accordance with Australian Standard 4970-2009 Protection of Trees on Development Sites, including the provision of temporary fencing to protect existing trees within 5 metres of development,
- ii) existing ground levels shall be maintained within the tree protection zone of trees to be retained, unless authorised by an Arborist with minimum AQF Level 5 in arboriculture,
- iii) removal of existing tree roots at or >25mm (\emptyset) diameter is not permitted without consultation with an Arborist with minimum AQF Level 5 in arboriculture,
- iv) no excavated material, building material storage, site facilities, nor landscape materials are to be placed within the canopy dripline of trees and other vegetation required to be retained,
- v) structures are to bridge tree roots at or >25mm (Ø) diameter unless directed by an Arborist with minimum AQF Level 5 in arboriculture on site,
- vi) excavation for stormwater lines and all other utility services is not permitted within the tree protection zone, without consultation with an Arborist with minimum AQF Level 5 in arboriculture including advice on root protection measures,
- vii) should either or all of v), vi) and vii) occur during site establishment and construction works, an Arborist with minimum AQF Level 5 in arboriculture shall provide recommendations for tree protection measures. Details including photographic evidence of works undertaken shall be submitted by the Arborist to the Certifying Authority,
- viii) any temporary access to, or location of scaffolding within the tree protection zone of a protected tree or any other tree to be retained during the construction works is to be undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of Australian Standard 4970-2009 Protection of Trees on Development Sites,
- ix) the activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites shall not occur within the tree protection zone of any tree on the lot or any tree on an adjoining site,
- x) tree pruning from within the site to enable approved works shall not exceed 10% of any tree canopy, and shall be in accordance with Australian Standard 4373-2007 Pruning of Amenity Trees,
- xi) the tree protection measures specified in this clause must: i) be in place before work commences on the site, and ii) be maintained in good condition during the construction period, and iii) remain in place for the duration of the construction works.

The Certifying Authority must ensure that:

c) The activities listed in section 4.2 of Australian Standard 4970-2009 Protection of Trees on Development Sites, do not occur within the tree protection zone of any tree, and any temporary

DA2021/1017 Page 27 of 31

access to, or location of scaffolding within the tree protection zone of a protected tree, or any other tree to be retained on the site during the construction, is undertaken using the protection measures specified in sections 4.5.3 and 4.5.6 of that standard.

Note: All street trees within the road verge and trees within private property are protected under Northern Beaches Council development control plans, except where Council's written consent for removal has been obtained. The felling, lopping, topping, ringbarking, or removal of any tree (s) is prohibited.

Reason: Tree and vegetation protection.

13. Condition of Trees

During the construction period the applicant is responsible for ensuring all existing trees required to be retained are maintained in a healthy and vigorous condition. This is to be done by ensuring that all identified tree protection measures are adhered to, or by seeking arboricultural advice from an Arborist with minimum AQF Level 5 in arboriculture during the works. In this regard all protected trees shall not exhibit:

- i) a general decline in health and vigour,
- ii) damaged, crushed or dying roots due to poor pruning techniques,
- iii) more than 10% loss or dieback of roots, branches and foliage,
- iv) mechanical damage or bruising of bark and timber of roots, trunk and branches,
- v) yellowing of foliage or a thinning of the canopy untypical of its species,
- vi) an increase in the amount of deadwood not associated with normal growth,
- vii) an increase in kino or gum exudation,
- viii) inappropriate increases in epicormic growth that may indicate that the plants are in a stressed condition.
- ix) branch drop, torn branches and stripped bark not associated with natural climatic conditions.

Any mitigating measures and recommendations required by the Arborist are to be implemented.

The owner of the adjoining allotment of land is not liable for the cost of work carried out for the purpose of this clause.

Reason: Protection of trees.

14. Road Reserve

The applicant shall ensure the public footways and roadways adjacent to the site are maintained in a safe condition at all times during the course of the work.

Reason: Public safety.

15. Removing, Handling and Disposing of Asbestos

Any asbestos material arising from the demolition process shall be removed and disposed of in accordance with the following requirements:

- Work Health and Safety Act;
- Work Health and Safety Regulation;
- Code of Practice for the Safe Removal of Asbestos [NOHSC:2002 (1998)];
- Guide to the Control of Asbestos Hazards in Buildings and Structures [NOHSC: 3002 (1998);
- Clause 42 of the Protection of the Environment Operations (Waste) Regulation 2005;
- The demolition must be undertaken in accordance with Australian Standard AS2601 The Demolition of Structures.

DA2021/1017 Page 28 of 31

Reason: For the protection of the environment and human health.

16. **Demolition Works - Asbestos**

Demolition works must be carried out in compliance with WorkCover Short Guide to Working with Asbestos Cement and Australian Standard AS 2601 2001 The Demolition of Structures.

The site must be provided with a sign containing the words DANGER ASBESTOS REMOVAL IN PROGRESS measuring not less than 400 mm x 300 mm and be erected in a prominent visible position on the site. The sign is to be erected prior to demolition work commencing and is to remain in place until such time as all asbestos cement has been removed from the site and disposed to a lawful waste disposal facility.

All asbestos laden waste, including flat, corrugated or profiled asbestos cement sheets must be disposed of at a lawful waste disposal facility. Upon completion of tipping operations the applicant must lodge to the Principal Certifying Authority, all receipts issued by the receiving tip as evidence of proper disposal.

Adjoining property owners are to be given at least seven (7) days' notice in writing of the intention to disturb and remove asbestos from the development site.

Reason: To ensure the long term health of workers on site and occupants of the building is not put at risk unnecessarily.

17. Survey Certificate

A survey certificate prepared by a Registered Surveyor is to be provided demonstrating all perimeter walls columns and or other structural elements, floor levels and the finished roof/ridge height are in accordance with the approved plans.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority.

Reason: To demonstrate the proposal complies with the approved plans.

18. Installation and Maintenance of Sediment Control

Prior to any works commencing on site, including demolition, sediment and erosion controls must be installed in accordance with Landcom's 'Managing Urban Stormwater: Soils and Construction' (2004). Techniques used for erosion and sediment control on site are to be adequately maintained and monitored at all times, particularly after periods of rain, and shall remain in proper operation until all development activities have been completed and the site is sufficiently stabilised with vegetation.

Reason: To protect the surrounding environment from the effects of sedimentation and erosion from the site.

19. Waste Management During Development

The reuse, recycling or disposal of waste during works must be done generally in accordance with the Waste Management Plan for this development.

Details demonstrating compliance must be submitted to the Principal Certifying Authority.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

DA2021/1017 Page 29 of 31

CONDITIONS WHICH MUST BE COMPLIED WITH PRIOR TO THE ISSUE OF THE OCCUPATION CERTIFICATE

20. Required Screen Planting

Screen planting shall be planted in accordance with the following:

i) at minimum, 5x screening shrubs are required to be planted adjacent to the western boundary at the front of the site. Suggested species include: *Acmena 'Firescreen'*, *Acmena smithii 'Minor'*, *Callistemon citrinus*, or *Syzygium 'Cascade'*.

The selected planting is to comprise of native species capable of attaining a height of 2 metres at maturity.

Plants are to be installed at minimum 1 metre intervals and be of a minimum container size of 200mm at planting in a garden bed prepared with a suitable free draining soil mix and minimum 50mm depth of mulch.

Reason: To maintain environmental amenity.

21. Stormwater Disposal

The stormwater drainage works shall be certified as compliant with all relevant Australian Standards and Codes by a suitably qualified person. Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure appropriate provision for the disposal of stormwater arising from the development.

22. Removal of All Temporary Structures/Material and Construction Rubbish

Once construction has been completed all silt and sediment fences, silt, rubbish, building debris, straw bales and temporary fences are to be removed from the site.

Details demonstrating compliance are to be submitted to the Principal Certifying Authority prior to the issue of any interim / final Occupation Certificate.

Reason: To ensure bushland management. (DACPLF01)

23. Waste Management Confirmation

Prior to the issue of a Final Occupation Certificate, evidence / documentation must be submitted to the Principal Certifying Authority that all waste material from the development site arising from demolition and/or construction works has been appropriately recycled, reused or disposed of generally in accordance with the approved Waste Management Plan.

Reason: To ensure demolition and construction waste is recycled or reused and to limit landfill.

ON-GOING CONDITIONS THAT MUST BE COMPLIED WITH AT ALL TIMES

24. Landscape Maintenance

If any landscape materials/components or planting under this consent fails, they are to be replaced with similar materials/components. Trees, shrubs and groundcovers required to be planted under this consent are to be mulched, watered and fertilised as required at the time of planting.

DA2021/1017 Page 30 of 31

If any tree, shrub or groundcover required to be planted under this consent fails, they are to be replaced with similar species to maintain the landscape theme and be generally in accordance with the approved Landscape Plan and any conditions of consent.

All weeds are to be removed and controlled in accordance with the NSW Biosecurity Act 2015.

Reason: To maintain local environmental amenity.

25. Undesirable Trees

Leighton Green Cypress *Cupressocyparis leylandii* or any of its cultivars, or any other Undesirable Trees identified by Council, must not be planted on the site for the life of the development.

In the event of any inconsistency between this condition and the development application documents, this condition will prevail to the extent of the inconsistency.

Reason: To reduce the potential for adverse amenity effects such as overshadowing, loss of views and loss of plant diversity.

In signing this report, I declare that I do not have a Conflict of Interest.

Signed

Phil Lane, Principal Planner

The application is determined on 27/08/2021, under the delegated authority of:

Rodney Piggott, Manager Development Assessments

DA2021/1017 Page 31 of 31
