**Subject:** ATTENTION: DEVELOPMENT ASSESSMENT Mod2022/0090 to DA2020/0661

**RE: Mod2022/0090 to DA2020/0661**

Legal Address: 7356/1167221 Huston Parade NORTH CURL CURL NSW 2099

Actual Location: John Fisher Park Field No. 5 in Abbott Road Grounds, North Curl Curl

Thank you for re-issuing the notification of MOD2022/0090 correctly naming John Fisher Park Field No. 5 as the location.

Thanks also to those Council officers who in their Referral Responses of 21/04/2022 and 04/05/2022 have had the good sense to reject Optus's attempt to get out of the one small condition placed on them in October 2021 by the Planning Panel that approved Optus building a communications tower in John Fisher Park despite wide community opposition.

I strongly object to the removal of Condition 10(ii) and question Optus' motives in seeking it.

Service Stream's request for the removal of this condition lists three attachments but only two (*Biodiversity Management Plan* and *Revegetation Plan*) appear in Documents. *Correspondence from Council's Environment Officer* does not. Like several others who have made submissions, in the interest of transparency I ask that this item be posted to Documents. I further request that when it is, all MOD 2022/0090 respondents be notified, and the submission period extended once again.

I hope changes will soon be made to Council's Application webpages and to all forms of communication so that a development's location is correctly described. When the same address is applied to nine different parcels of land and that address must be advertised as the location of any development within any of them—can be community be blamed for feeling they are intentionally being misled?

Many respondents have commented that this tower should never have been approved. My own views are in my submission to DA2020/0661 posted 14/10/2021.
